ESTABLISHED 1846 — NEWPORT, R. I., TUESDAY, APRIL 18, 1911. — PRICE TWO CENTS.

THE NEW MISSION HOME.

"The Store of Wonderful Arrangements" is the name that this store goes by. Not satisfied with what it has been we've just added to its list of wonders the wonder of them all. A large section of our second floor has been converted into a most fascinating great big den, setting forth in neat pleasing fashion the possibilities of mission furnishings. There are 200 pieces in the collection—sturdy examples of den and library luxury. Prominent among them is the piece we illustrate below.

THIS ROCKER

Built of heavy quartered oak, fumed finished is a typical mission piece, roomy and comfortable as it can be. Massive without being clumsy or woody in appearance. The seat is of the automobile type with soft spring covered in leather which blends perfectly with the coloring of the frame. It is hard to realize that such a piece is within easy reach of the slender purse; but our three stores' purchasing power makes that perfectly possible at

IN MEMORY OF FRENCH HEROES.

Tablet Unveiled at St. John's College in Annapolis.

Sons of Revolution Honor Nameless Soldiers and Sailors.

ANNAPOLIS, Md., April 18.—On the campus of St. John's College was unveiled here today a bronze tablet erected by the General Society of the Sons of the Revolution to the memory of the nameless French soldiers and sailors who in 1781 laid down their lives in the cause of American independence. President Taft and Ambassador Jusserand both made formal addresses. The midshipmen of the national Naval Academy did not turn out in honor of those who prevented the capture and probable sack of Annapolis, but representatives of the Sons of the Revolution from all parts of the country, the Sons of the American Revolution, the Society of the Cincinnati, the Maryland Historical Society and the Daughters of the American Revolution were in attendance.

To Professor Henri Marion of the department of languages at the Naval Academy is due in large measure the credit of awakening interest in the forgotten allies whose unselfish devotion so largely contributed to our freedom. Some years ago, in lecturing before the Alliance Francaise at Baltimore, he told how "French troops under Lafayette and Rochambeau encamped at Annapolis and by their presence (March, 1781) prevented the capture and probable sacking of that city. A number of French soldiers and sailors," he continued, "died from their wounds or from disease, and were buried at that time on the grounds at St. John's College, Annapolis. Could not a monument be erected on the graves of those forgotten defenders of American independence?"

In the audience was a member of the General Society of the Sons of the Revolution. He sought out the lecturer, secured from him the needed facts, and when in 1906 a French fleet came to assist at the final interment of the first American admiral, John Paul Jones, whose body had been brought to America the year before from Paris, Colonel Oswald Tilghman, a member of the society and then secretary of state for Maryland, called attention to the old military burying ground. As a part of the ceremonies of the visit the pediment of the present monument was laid, and the society pledged itself to raise the necessary funds for its completion. Later a design was determined upon and the commission to execute it was assigned to J. Maxwell Miller, a Baltimore sculptor.

The monument is a simple shaft of pink granite 13 feet high, bearing on one face a bronze entablature in alto relievo, seven feet seven inches wide by three feet nine inches high. The composition shows sorrowing Memory, crowned with the olive leaves of peace and leaning upon her victorious shield, watching the departure of a small group of marching soldiers, and it is interesting to note how much more subtle in suggestion is this treatment than the more usual one of troops confronting the spectator.

Above the heads of the marchers, banners are flying in the wind and in the background are seen the spars of vessels, while in the foreground are two small gravestones inscribed "Ici git un soldat de la France," and the other "Ici git un marin de la France" (Here lies a soldier, here lies a sailor of France).

On the shield appears the English inscription: "A tribute of gratitude to the brave soldiers and sailors of France buried here, who gave their lives in the struggle for American independence. The memory of their deeds will endure forever, 1781-1783." Beneath the tablet is a legend: "Erected April 19, 1911, by the Sons of the Revolution."

Although David Ridgely in his "Annals of Annapolis," published in 1840, says that "traces of the French encampment still remain" and speaks of "mounds raised to those who died in the service," the exact spot for the memorial was chosen only after painstaking research, and it has been impossible to discover the names of the dead or even their exact number. It is only known that alive they defended the field and dead they still hold it.

Near by is another monument, erected by act of Congress in 1903 to mark "the locality where Maryland forces of the Continental army and French allies were encamped in September, 1781, while on their way to report to Lafayette at Yorktown, Va."

The committee in charge of the works has consisted of Talbot Olyphant, chairman, New York; Granville Leach, Philadelphia; William Gordon McCabe, Richmond, Va.; William Libbey, Princeton, N. J.; Henry Cadle, Bethany, Mo.; Henry Dexter Warren, Boston, Mass.; Julian Henry Lee, Baltimore, and J. Appleton Wilson, secretary, Baltimore.

A LABOR LEGISLATOR.

Edward A. Mosely Dies in Washington After Continued Illness.

WASHINGTON, April 18.—Edward A. Mosely, secretary of the interstate Commerce Commission and the originator of much labor legislation, died here today after a continued illness, aged 65 years. The immediate cause of death was heart failure superinduced by acute kidney disease. Funeral services will be held here Thursday and the body taken to Newburyport, Mass. for burial.

As an intimate friend and personal adviser of Presidents, cabinet officers, Representatives, Senators and other public officials during the last quarter of a century, Mr. Mosely accomplished notable results, particularly along humanitarian and philanthropic lines. He was recognized as an authority upon all measures designed to insure the safety of railway employes and travelers, and was instrumental in securing the enactment of laws requiring the use by railways of safety devices. In recognition of these services, he received the thanks of the legislature of Massachusetts and of practically all the great railway labor organizations. The interstate Commerce Commission practically suspended all business today.

SULLIVAN ATTACKS THE TAX MEASURES.

To Come Up Friday, and Democrats Against Them.

Stone Bridge at Tiverton Pronounced in Dangerous Condition.

[Special despatch to The News.]

PROVIDENCE, April 18.—The General Assembly resumed business today after a brief vacation and received a number of bills, in addition to clearing the calendars of a large amount of important and minor measures.

The house did not take up the tax bills, which were the special order for today, voting to make them the special order for Friday. After the session the Democrats held a conference at which it was agreed to vote against the bills, and Representative Sullivan of Newport made a bitter attack on them, charging that they were erroneous and should not be enacted.

A report was received from an engineer, stating that the Rhode Island Stone Bridge is in serious condition, and unless repairs are made immediately at an expense of several thousand dollars the structure is in danger of collapsing.

The Newport & Providence Railway Company's charter in amended form passed the house in concurrence.

In the senate Senator Sayles of Burrillville for the finance committee, reported a resolution appropriating $25,000 for repairs to the state sanatorium at Wallum lake. Placed on the calendar.

Senator Lawton of Tiverton, for the same committee, reported a resolution appropriating $29,900 for repairs to the Rhode Island Stone Bridge. Calendar.

Senator Sayles introduced a resolution to pay Samuel F. Gray of Providence, a consulting engineer, $300 for viewing the Stone Bridge and making a report on its condition. The report states that piers have shifted, the draw arrunions are out of place, and there is danger of the whole structure collapsing unless attention is given it at once. He suggests that there be a thorough examination and that repairs be made to prevent further damage. If this is not done the bridge will need to be closed and it may cost $200,000 to make repairs. The resolution was referred to the finance committee. Senator Arnold suggested that the report indicated that there was faulty construction in the bridge.

Senator Bowen of Warwick introduced an act to validate the $400,000 bonds issued by the town of Warwick last summer without authority from the General Assembly. Referred to judiciary committee.

Senator Arnold of Westerly, for the finance committee, reported an act appropriating $50,000 for the erection of a courthouse in Westerly. He asked unanimous consent for immediate consideration which was granted, and the act was passed.

Senator Sanborn, for the committee on judiciary, reported an amendment to the milk bill, giving the Newport Board of Health power to appoint a milk inspector. Placed on the calendar.

Senator Bennett of Woonsocket introduced an act providing for an inspection of all buildings where gasoline or other inflammable fluids are stored. Referred to the judiciary committee.

Senator Pierce of Cranston introduced an amendment to the milk laws, providing that all milk sold in the state shall be so marked that it may be known by the purchasers whether it was produced in Rhode Island or elsewhere. Referred to the judiciary committee.

The act providing for the insurance of state property was taken from the table and passed.

A resolution appropriating $25,000 for the Perry monument at Put-in-Bay, Ohio, was also passed, and a number of minor bills were taken from the calendar and passed.

In the house, upon motion of Mr. Franklin, the joint rule requiring the engrossing of acts before they become laws was suspended.

Mr. Franklin reported for the judiciary committee six acts relating to bonds aggregating $475,000 for the city of Pawtucket. Placed on the calendar.

Mr. Colton of Providence requested that his bill providing for an inspection of plants operated by electricity be reported back by the committee on special legislation, to which it had been referred. The house refused so to vote.

Mr. Franklin introduced a resolution to re-imburse Sheriff Anthony to the extent of $1,610 for moneys used in the Newport County jail and advanced by him. Referred to the finance committee.

Mr. Baldwin of Providence introduced an act prohibiting the wrapping of food stuffs in newspapers. Referred to the judiciary committee.

A resolution providing $5,000 for repairs and improvements to the Rhode Island State College was passed, as were also amendments to the charters of the Peacedale Manufacturing Company, for an increase of its stock for electric lighting purposes, and of Newport & Providence Railway Company, for rights in the town of Warren.

Many minor bills were taken from the calendar and disposed of.

AT BROWN UNIVERSITY.

President Taft Promises to Consider Invitation to Commencement.

WASHINGTON, April 18.—President Taft today promised Justice Hughes to consider an invitation to attend the commencement exercises at Brown University, Providence, R. I., June twenty-first. The President had intended to go to Yale on that date, but he has seen a good many commencements there and still he thought he would like to see one at Brown.

STEAMERS REPORTED.

NEW YORK, April 18.—Kaiser Wilhelm Der Grosse, from Bremen, etc., for New York, 193 miles east of Sandy Hook at 5:50 a. m.; will dock about 7:30 p. m. today.

SASCONSET, Mass., April 18.—Carmania, from Liverpool and Queenstown for New York, 423 miles east of Sandy Hook at 1:50 a. m.; will dock about 8 a. m. Wednesday.

TOWN EVACUATED DURING THE NIGHT.

Rebel Army Quietly Abandons Agua Prieta.

National Guards Enter the City Without Resistance.

AGUA PRIETA, Mexico, April 18.—The rebel army, after almost 18 hours of incessant fighting yesterday in defense of Agua Prieta, quietly evacuated the town during the night. It moved out silently and when day broke was nowhere to be seen. The Mexican national troops entered the city at dawn, encountering no resistance.

The federals approached the town from the south and east during the early hours coming in slowly and cautiously, lest they encounter an ambush. Great was the surprise of the commanders of the government troops on finding, when they reached the outer works of the rebel entrenchments, that the trenches had been abandoned and no insurrectos were in sight. The federals continued to come in still more slowly, presumably expecting at every moment to encounter a surprise, but they found no rebels anywhere. The latter had vanished as completely as the night. There was no indication even of the direction they had taken.

The reason for the evacuation of the city after their all-day defense of it was not at first apparent. The most logical conclusion seems to be that they had exhausted their ammunition. Later developments showed the rebel army to be badly disrupted. Its leaders gave up the fight and the men in the ranks appear to have fled in all directions of their own individual choosing.

Colonel Medina, who assumed command of the rebels in Agua Prieta last night, made his way to the American line before dawn and surrendered to the United States troops. He was the jefe politico (mayor) of the town. He was placed under guard and held at the headquarters of the American cavalry at the ball park. The victorious federal force which occupied the town this morning, numbered about 1,200 men. Lieutenant Colonel Reynoldo Diaz was in command. Under him were Major Barron of the rurals and Commandant Francisco Chipla formerly prefect of the town of Moctezuma.

The government losses in yesterday's fighting may never be known. The federals declined the assistance of the Red Cross today, stating the army would care for its own wounded. During the fighting yesterday the federals removed their dead and wounded to the rear. It is understood that those killed were buried in the field. None were brought into the bull ring at Agua Prieta today. "We are now making up the list but as yet cannot tell what it is either in dead or wounded," Major Barron told the Associated Press correspondent. "We have not gathered the dead from the rebel trenches as yet, but later we will give you this information."

The correspondent passing in the streets of Agua Prieta saw a few bodies of rebels lying in the streets. At the bull ring there were evidences everywhere of yesterday's fighting, and ample signs that the federals had had accurate information of the strongholds occupied by the rebel forces. The main towers at the bull ring entrance were literally shot into slovs. Thousands of bullets pierced them. For a time, the machine guns poured hail steadily into these towers and over the tops of the adobe walls from which the garrison was firing. In the west of the bull ring were two bodies. One was that of an American. At the entrance to the first story of the tower, was a rivulet of drying blood, which poured out through the doorway and into the dust of the bull ring.

Sitting against the west wall of the bull ring and heavily guarded by Mexican troops, sat a lone American who had not gone with the retreating rebel army. His hands were tied with ropes which passed over his shoulders. "They are not going to shoot me, are they?" he asked in a terrified voice. He said his name was Thomas Sullivan; that he was born in Connecticut, that he last worked at Cananea, and that he came to Douglas from Bisbee. He said he had crossed the Mexican line yesterday, had been arrested by the rebels, robbed of $100, forced to display the scarlet ribbon on his arm and had been driven into the fighting line. He still wore his scarlet ribbon today.

The rebels evacuated Agua Prieta because they had exhausted their ammunition. This was apparent from the stories related by the one or two who did not flee and by the federals who entered the town. Great quantities of empty cartridges were lying everywhere. The insurrectos' firing was kept up until early this morning. The federals, more amply supplied with ammunition, continued their bombardment until that hour, principally for the purpose they say, of provoking the rebels into replying and exhausting their cartridges. As the rebels passed out of Agua Prieta to the westward, one or two members of the army called across the line to the American troops "We are going into the mountains and will return when we get some cartridges."

Alexander F. Dye, American consul at Nogales who was in Douglas all yesterday, visited the bull ring in Agua Prieta today and conferred with the federal commanders. His conference especially related to the re-opening of the ports of Douglas and Agua Prieta. Commandante Chiapa in a blue uniform with a red-banded straw hat, was chief spokesman for the federals.

The citizens of Douglas felt much relieved today over the federal occupation of Agua Prieta and the cessation of fighting. The federal attack on Agua Prieta yesterday and last night, though it endangered the city of Douglas, was generally credited as an admirable bit of military strategy and especially noteworthy was the skill of the Yaqui Indians who acted as cavalry.

The federal cavalry was employed to carry the foot soldiers forward to the shelter of a ravine where the infantry men dismounted, each horse and its rider returning to the ranks for another load. The federal machine guns protected the men occupying this ad-

THE HESS-LEYS CO.

SIXTEEN SURVIVORS PRESENT.

[Continued from Eighth Page.]

have the boys instructed in target practice.

Vice President Hamilton presented souvenir books of the occasion he had had printed, and Comrade Delano, as patriotic instructor of the Grand Army, presented each person with a little silk American ensign. Mr. Hamilton, in making his presentation, said he felt intensely grateful to see so many present and considered it marvelous that 25 per cent of those who had left the same armory 50 years ago to go to the war should be gathered about the festive board at this time. It was a solemn thought, that of those who had been left on the battlefield, but their blood tended to purify and solidify the memory of the old days.

Enskin Chappelle spoke of the armory as being their cradle, and that they always feel at home there. He reviewed the call to arms and closed by saying I am still quite a boy, only 84.

Representative Franklin was introduced as one who had been a member of the escort when the company marched to steamer Perry 50 years ago. He spoke on the spirit of patriotism of '61, when Peckham and Harrington were left on the field of battle and King, wounded, was captured and sent to prison. He was proud to be an honorary member of the Association and felt as if, in the words of Webster, he was meeting with "venerable men from a former generation."

Mayor Boyle felt it a special honor to be present. He said he had lived long enough to appreciate the sacrifices made by these men and the risks they had run. All who went out, he said, lost something—life, limb, health or opportunity. Those present are a living lesson of patriotism.

Colonel King spoke of the spirit of '61 still existing in the Artillery and of the recent response from members of the company in case there is a call to the Mexican border. He further said that the armory is always open to the members of Company F.

Rev. Dr. Johnson spoke of the cost of liberty and freedom, not alone in millions of money but also in blood; also of the anguish of those left behind as a cost to be counted.

Comrade Bailey expressed his regrets at not going out on the first call, and then gave his recitation of the German soldier at the battle of Lookout Mountain.

Collector Burlingame apologized for being so ignorant as to call the Representative Council meeting on this particular night, and then recited an adaptation of Lincoln's Gettysburg speech to this special occasion, which he had made.

Colonel McMahon told the story of how, when a corporal of the Second Rhode Island, he tore down the rebel flag from the Fairfax, Va., court house and delivered it to Governor Sprague, in waiting below. He said he climbed the lightning rod and secured it while two members of the First Rhode Island, who were already on the roof, were discussing how they could do it. He exhibited a picture of himself about that time and a postal from General Rhodes, with a picture of the court house, and calling attention to the anniversary of the deed.

Mr. Peckham was introduced as a brother of one of the two members of the company left dead on the first battlefield of Bull Run. He spoke of his vivid recollection of 50 years ago and believed in the patriotic instruction in the schools. He hoped the veterans would keep up the telling of the same old story, each Flag day.

Commander Luther of the Sons of Veterans said he considered the old veterans an inspiration for the younger generations.

Fred M. Hammett said he preferred to hear the veterans talk on such occasions as these. As the father of several children, he could say that the pupils appreciate what the veterans say on their visits to the schools, and their words impress the children far more than all the other speakers may say. He hoped some one would tell the history of the tattered old flag displayed in the hall.

Secretary Clarke said the flag was sent to the company while at Washington by William Vernon of Newport. On the last Tuesday in May, Election day in Newport, it was flown over the tent of the first sergeant. The flag which was carried by the company in the first battle of Bull Run is in the state capitol at Providence, with the other flags. He then recited the little history of the regiment which he had prepared for the anniversary 25 years ago.

The chair announced that the hour was late and many of those present were out long after their usual bedtime; hence it was desirable that the gathering be brought to a close. It was 10 minutes of 12 when the party rose from the tables.

Comrades were present who have not met with the Association for years. Among these was Joshua Perry Clarke, who carries in his body several bullets and is totally blind.

The supper was served by Aramson and was the most elaborate furnished by the association for some time. It is understood that it was provided through the generosity of one of the comrades.

A NEW SHORE LINE.

Electric Road Expected to be Link in Direct Trolley Route from New York to Boston.

A new Shore Line railway, an electric road, which promises to be a link in a direct trolley route from New York to Boston by way of Providence, is under construction between New Haven and the Connecticut river. Two hundred men are at work in Foxon and North Branford, Conn.

From Saybrook, at the mouth of the Connecticut river to South Lyme there is an incomplete link which it is expected will be ready by the time the line west of the river is done. Concrete bridges are being built along the line, which Lyme to New London and Westerly the road is in operation. The Sea View, if extended from Wakefield to Westerly, and either the existing lines or the proposed Boston & Providence interurban Electric will complete an electric line parallel with the steam road between New York and Boston.

Two hours running time between New Haven and New London is proposed. That is about twice as long as the steam express trains require. If the same ratio of speed is maintained over all the lines the trolley trip between New York and Boston can be made in a comfortable day's time, which is not possible with the existing lines by way of Worcester and Springfield.

OLD LOUNGE CONTAINS MONEY.

Glistening coins and crumpled bills, to the amount of $2,495, were disclosed to Peter J. Bitts, a laborer, when a restless earthorse backed a wagon over an old lounge on an East Boston street. It is not known how the money came to be in the lounge. It was contained in a bundle wrapped in cloth, which had been hidden in the lounge.

FRANCE TO CURB MOROCCO.

Sends Troops as Internal Situation Constantly Grows Worse.

PARIS, April 17.—In consequence of the anarchistic conditions in Morrocco, France will re-inforce her troops already there by sending thither immediately four battalions selected from the colonial army.

The decision of the government to dispatch fresh re-inforcements is due to the fact that the internal situation at Morocco is growing steadily worse. Several tribes hitherto faithful to Sultan Mulai Hand have thrown in their lot with the rebels.

The position of Fez, including the matter of the lives and property of foreigners, is considered critical. The rebels are reported drawing a circle around the capital, whose only hope of safety lies in the sultan's army, commanded by Captain Bremond. Dispatches received here by way of Spain indicate that sedition is rampant in Fez itself, with food growing scarce and communication with the coast becoming daily more difficult.

FOR ANNUAL EGG-ROLLING.

Thousands of Children on White House Grounds, Easter Monday.

WASHINGTON, April 17.—Bright skies and warm sun brought thousands of children to the White House grounds today for the annual Easter Monday egg-rolling. Children of all sorts and of all ages came trooping early into the President's big back yard. Most of them brought baskets filled with eggs of vivid colors. The rolling had not long been in progress when eggshells that would have amazed almost any regular chicken strewed the grassy little hills of the White House from top to toe while crusts of bread and cake gave evidence that the picnic feature of the day had not been overlooked.

Of course, a lot of the egg-rollers came to see the President and Mrs. Taft. No grown-ups were admitted unless accompanied by children. This leads to the usual trafficking among small boys, who hired themselves to strangers seeking admission at rates of from 5 to 25 cents. The police, always on the lookout for this, soon put a stop to the practice, however.

REACHES ONE THOUSAND.

Term Docket of Cases for Consideration by the Supreme Court.

WASHINGTON, April 17.—For the first time in 18 years, the term docket of cases for consideration by the Supreme Court of the United States has reached 1,000. Of this number, the disposition of probably 300 has been made by the court during the term, leaving 700 for consideration. The slump in the docket 18 years ago was due to a re-organization of the judiciary system. The increase this year is regarded as due both to the increasing number of cases annually brought to the Supreme Court and to the vacancies on the bench last year. The thousandth case probably will not be reached, on the regular call of the docket for argument, within three years.

TRADING STAMP MEN WIN.

Court Sustains Point of Order Raised in Massachusetts House.

BOSTON, April 17.—A point of order raised in the house that a bill prohibiting the giving of trading stamps, now pending in that body, was unconstitutional, was sustained today by the supreme court.

LEGAL NOTICES.

CIRCUIT COURT OF THE UNITED STATES.

District of Rhode Island. In Equity.

John Nagle et al.
vs.
Independent Ice & Cold Storage Co.

Decree authorizing Receiver to Sell all Assets and Real and Personal Property.

This cause came on to be heard on the petition filed on March 13th, 1911 by William R. Rose, Receiver, heretofore appointed in this cause, praying that a decree be entered authorizing him, and directing the Receiver to sell at public auction all the assets of the Independent Ice and Cold Storage Company, including all real estate and personal property, and rights in the hands of the Receiver and the business as a going concern, under the name of the Independent Ice and Cold Storage Company.

It appearing that all known creditors of said company, and all the stockholders have been duly notified in accordance with the direction of this Court, and no one appearing in opposition hereto, it is upon motion of Counsel for the Receiver,

Ordered, Adjudged and Decreed, as follows:—

1. The Receiver is hereby authorized and directed to offer for sale, and to sell at public auction, at such time as the Receiver may determine, subject to the following order as to publication and notice, on the premises of Independent Ice and Cold Storage Company, in the city of Newport, in the State of Rhode Island, and as one entire lot, all the property of the Independent Ice and Cold Storage Company, including all real estate and interests in real estate both legal and equitable, plants, buildings and all machinery, equipment, supplies, notes and accounts receivable, good-will and all other personal property of the said company, and the business as a going concern, under the name of Independent Ice and Cold Storage Company, carried on by the Receiver, excepting however, cash on hand and cash deposits held or claimed by the Receiver.

2. Notice of such proposed sale shall be given to all persons interested, by publishing notice of the time and place and conditions of such sale and an attested copy of this decree, together with a description of the real estate to be sold, once a week for at least three (3) weeks prior to such sale, in the Boston Advertiser, a newspaper published in Boston, Massachusetts, and by mailing a copy hereof to all Stock-holders, and all known creditors of the Independent Ice & Cold Storage Company. The Receiver may, at his discretion, adjourn or postpone such sale, from time to time and without further notice or advertisement, may proceed with such sale at the time to which it may have been adjourned.

3. Such sale shall be made subject to the confirmation of this Court and to the terms and conditions of this decree. No bids shall be received at said sale unless the bidder shall, prior to the opening of the sale deposit with the Receiver subject to the further order of this Court, cash or a certified check, payable to the Receiver or his order at some National Bank in the City of Newport, to the amount of five thousand ($5,000.) dollars. Any such deposit made by an unsuccessful bidder shall be returned to him by the Receiver at the close of the sale. Such deposits made by the successful bidder shall be retained by the Receiver, subject to the further order of this Court, and if the said sale shall not be confirmed such deposit shall be returned to the depositor. If upon and after confirmation of the sale by this Court the purchaser shall fail to pay the balance of the purchase price or in any respect fail to comply with the terms and conditions of the sale, or with any order of the Court relative thereto, such deposit, unless the Court shall otherwise order, shall be forfeited by the depositor and shall be retained by the Receiver as assets of the Independent Ice and Cold Storage Company, and the Receiver shall thereafter be discharged of all obligations to the depositor, his representatives or assigns with reference thereto; but if the purchaser shall comply with all such terms and conditions of the sale and order of the Court relative thereto, such deposit shall be credited as a part payment of the purchase price upon final adjustment with such purchaser. Any purchaser who may be entitled to receive any payment under any order of distribution which may be made in this cause shall be entitled to have the amounts of such payments applied on account of the purchase price in such manner as this Court may determine upon confirmation of the sale. The Court reserves the right to reject any and all bids and authorizes the Receiver to make such other terms and conditions of said sale not inconsistent herewith as in his discretion may seem wise and prudent.

4. Said property shall be sold subject to any and all liens for unpaid taxes and assessments of every nature and subject to all other charges, liens and incumbrances thereon, if any, which may be outstanding at the time when transfer of title is effected, whether the same existed at the time when the Receiver was appointed in this cause or have arisen thereafter. But no sale of said property shall be made for a sum less than forty thousand ($10,000.) dollars, including taxes, liens, mortgages and other charges thereon. And the purchaser shall assume and covenant and agree to pay the same and to indemnify and save harmless the Receiver therefrom and said property shall be charged therewith, and the deed of conveyance shall contain such instruments, and provide for the protection of the Receiver in such manner and form and to such extent and for such time as the Court may hereafter determine.

5. The Receiver shall continue in the possession and control and management of said property and shall continue the business of the Independent Ice and Cold Storage Company, until the further order of this Court, relative thereto, and may use the cash in his hands excepted from the sale as aforesaid as well as any other money which may be received by him, and apply the same to the expense of the business and management and protection of the property and to the performance of his obligations whether already or hereafter incurred. The said property and business shall be conveyed and transferred as they stand on the date when transfer of title is affected and an adjustment shall thereupon be made, whereby any excess of money received by the Receiver after the day of said sale over and above the money expended by him after that time as aforesaid shall be paid over to the purchaser, and any excess of such expenditures over such receipts shall be repaid to the Receiver by the purchaser.

6. The Court expressly reserves the right to make any further order and direction in the premises as may seem just and proper.

By the Court (Brown, J.) March 30, 1911.
WILLIAM P. CROSS, Clerk.

[Seal]
A true copy
WILLIAM P. CROSS, Clerk.

Under and pursuant to the authority and direction of the above decree, and subject to the conditions therein set forth, the Receiver will sell at public auction on the **Twenty-fifth Day of April A. D. 1911, at Eleven (11) o'clock A. M.** on the premises of the Independent Ice and Cold Storage Company, in the City of Newport, and state of Rhode Island, as one entire lot all the property of the Independent Ice and Cold Storage Company, including all real estate, and interests in real estate, both legal and equitable plants, buildings, and all machinery, equipments, supplies, notes and accounts receivable, good will, and all other personal property of the said Company, and the business as a going concern under the name of the Independent Ice and Cold Storage Company, carried on by the Receiver, excepting however, cash on hand and cash deposits held or claimed by the Receiver.

The real estate to be sold comprises all the right, title and interest of the Independent Ice and Cold Storage Company in, and to the plant known as the Independent Ice and Cold Storage Company, situated in the City of Newport, state of Rhode Island, together with all privileges, easements and appurtenances thereto. The said real estate is bounded and described as follows:

All that certain lot, tract or parcel of land in said City of Newport bounded and described as follows, to wit: Northerly by land now or formerly of Penelope Lawton, then turning southerly bounded easterly by land formerly of the devisees of Gilbert Chase deceased but now of George D. Wilcox; then turning easterly bounded northerly by said land of George D. Wilcox to Thames Street; then turning southerly bounded easterly by Thames Street; then turning westerly bounded southerly by land of Louis Hess; then turning southerly bounded easterly by said land of Louis Hess; then turning easterly and bounded northerly by said land of Louis Hess to Thames Street; then turning southerly bounded easterly by Thames Street to land of William K. Covell, Jr.; then turning westerly bounded southerly by land of William K. Covell, Jr.; then turning southerly bounded easterly by said land of William K. Covell, Jr.; to land of the devisees of William J. Swinburne, deceased; then turning westerly bounded southerly by said land of the devisees of William J. Swinburne, deceased, to the harbor of Newport; then turning northerly bounded westerly by said harbor then turning westerly bounded southerly by said harbor; and then turning northerly bounded westerly by the said harbor to the land of the aforesaid Penelope Lawton; together with the land covered by salt water lying opposite to and adjoining said wharf and land out to the harbor line; said premises being subject to two ways over the same, one of which is twelve (12) feet wide and runs westerly from Thames Street, along the southerly side of said land of said George D. Wilcox and the other of which is eleven (11) feet and nine (9) inches wide, and runs westerly from Thames Street along the northerly side of said land of said William K. Covell, Jr. The aforesaid premises being all of the same which were conveyed to Joseph Bradford and Gardiner B. Reynolds in two parcels by John W. Sherman, by two deeds both dated May 1st, 1873 and recorded respectively in Volume 43 at page 258 and 259, and in Volume 45 at page 7 and 8 of the land Evidence of said City of Newport, excepting however, those portions which have heretofore been conveyed by Phoebe A. Bradford and Gardiner B. Reynolds to Thomas W. Freeborne and Louis Hess, and being the same premises conveyed to said Independent Ice and Cold Storage Company by deed of the Newport Coal Company, dated January 16th, 1897, and recorded in the City Clerks Office of said Newport, with the records of Land Evidence of the said City of Newport, Volume 87, Pages 554, 555 and 556.

THE PURCHASER SHALL BEFORE THE OPENING OF THE SALE DEPOSIT WITH THE RECEIVER CASH, OR A CERTIFIED CHECK ON SOME NATIONAL BANK IN THE CITY OF NEWPORT, STATE OF RHODE ISLAND TO THE AMOUNT OF FIVE THOUSAND ($5,000.) DOLLARS. SAID PROPERTY SHALL BE SOLD SUBJECT TO ANY AND ALL LIENS AND UNPAID TAXES AND ASSESSMENTS OF EVERY NATURE, AND SUBJECT TO ALL OTHER CHARGES, LIENS AND INCUMBRANCES THEREON, IF ANY, WHICH MAY BE OUTSTANDING AT THE TIME WHEN TRANSFER OF TITLE IS EFFECTED, WHETHER THE SAME EXISTED AT THE TIME WHEN THE RECEIVER WAS APPOINTED OR HAVE ARISEN THEREAFTER. NO SALE OF SAID PROPERTY WILL BE MADE FOR A SUM LESS THAN FORTY THOUSAND ($10,000.) DOLLARS, INCLUDING ALL TAXES, LIENS, MORTGAGES AND OTHER CHARGES THEREON.

THE SALE IS TO BE MADE SUBJECT TO THE CONFIRMATION BY THE COURT AND THE BALANCE OF THE PURCHASE PRICE SHALL BE PAID WITHIN TEN (10) DAYS AFTER SUCH CONFIRMATION OR AT SUCH LATER TIME AS THE COURT MAY ORDER, PROVIDED HOWEVER, THE RECEIVER SHALL HAVE A REASONABLE TIME WITHIN WHICH TO PREPARE HIS DEED OF CONVEYANCE.

For further particulars and information apply to the Receiver William R. Rose, Newport, R. I. or his attorney

The Sirolin Sentinel
Fighting The Great White Plague
NEWPORT, TUESDAY, APRIL 18, 1911.
Home-Treatment for Lung and Throat Ailments
No Specialists' Fees—No Sanitarium Charges—No Traveling Expenses.
The coming of Sirolin to America has made it possible for every sufferer from lung and throat troubles to take at trifling expense, and in the comfort of home, the treatment prescribed by Europe's leading specialists.
Sirolin taken at the first sign of Coughs, Colds, La Grippe and other throat and lung affections invariably cuts short the attack—it is invaluable as a preventive remedy.
In deep seated, chronic diseases of the air passages Sirolin has remarkable virtue in causing unfavorable symptoms to rapidly disappear and in restoring the sufferer to normal health.
In incipient Consumption, the taking of Sirolin combined with fresh air treatment and plenty of nutritious food is followed by results little short of miraculous—coughing rapidly decreases, weakening night sweats disappear, the appetite improves, the chest and limbs fill out, the bodily weight increases, the quality of the blood is improved, the nervous system becomes normal and the increase of tubercle bacilli is checked and the germs often entirely eliminated. Because of the absolute harmlessness of Sirolin—the entire absence of any injurious drug, the manufacturers have consented to have Sirolin sold by high-class druggists direct to all who suffer from trifling or serious ailments of the throat and lungs.
The coming of Sirolin to America is an event.

MIDDLETOWN.

New Town Council Organizes and Arranges for Highway Work.

Large Number of Minor Town Officials Elected at the Opening Meeting

[Regular correspondence of The News.]

Owing to the continued indisposition of Town Clerk Albert L. Chase, the initial meeting of the town council was held at his residence Monday afternoon. The five members elected April 5 were all present, including Henry I. Chase, Henry C. Sherman, James H. Barker, Lewis R. Manchester and Joseph E. Kline, and were duly sworn by the town clerk. Henry I. Chase was chosen president.

The highways were divided into four districts and $200 was apportioned to each for ordinary repairs. Instructions as to methods for caring for the highways were formulated, and the rates of compensation were fixed at 20 cents per hour for each able-bodied man, 25 cents for each double team and 10 cents for each single wagon.

The condition of Paradise avenue was discussed and it was resolved to make temporary repairs, by filling the ruts with No. 2 crushed stone, and James H. Barker was made a committee to attend to the work.

James H. Barker was appointed a committee to see the Peckham Brothers Company and ascertain on what terms the company will furnish crushed stone to the town for the new municipal year.

James H. Barker was also appointed a committee to have charge of the town pump in the spring in Green End avenue, near its junction with Paradise avenue.

Henry I. Chase was appointed a committee to obtain proposals for furnishing and applying oil to the stone roads.

The annual report of Albert G. Brown health officer, was received and ordered on file.

The following accounts were allowed and ordered paid from the town treasury: Albert G. Brown, for services as health officer, $50.; Alden P. Barker, William S. Coggeshall, James Willis Peckham, Alvin P. Smith and Dennis J. Murphy, services as assessors of taxes, $20 each; Daniel A. Peckham, Howard G. Peckham, Chester A. Carr and Richard H. Wheeler, services as supervisors of the lection of town officers April 5, 1911, $5 each; Old Colony Street Railway Company, electric light at town hall, $4.56; Herald Publishing Company, advertising canvass notice, $13.13; T. T. Pitman, advertising notice of annual town meeting, $13; William O. Milne, printing official ballots, instruction sheets, etc., $44.25; Abram Almy Company, coal for town hall, $11.25; Stewart Ritchie, services as member of public school committee for three years, $12; Arthur A. Brigham, services as janitor of town hall, $13.

The following additional town officers were appointed:

Fence Viewer—Percy T. Bailey.

Auctioneer—James A. Taber.

Surveyors of Highways—District No. 1, John H. Spooner; advisory committee, Lewis R. Manchester; No. 2, Walter S. Barker; committee, Henry C. Sherman, No. 3, Stephen J. Barker; committee, James H. Barker; No. 4, Clinton G. Smith; committee, Joseph E. Kline.

Town Sealer—Restcom S. Peckham.

Pound Keeper—Arthur A. Brigham.

Weighers of Neat Cattle—George R. Chase, James Oscar Peckham.

Public Weighers—Dennis J. Murphy, Edward J. Peckham, William S. Coggeshall.

Appraisers of damages done by dogs—Frederick B. Spooner, Samuel Chambers, Charles H. Sisson.

Inspector of Petroleum, etc.—Charles K. Carr.

Commissioner of Wrecks—Prescott Malden.

Police Constable—Elisha A. Peckham, James Bloomfield, James A. Taber, Arthur A. Brigham, Thomas C. Murphy, Cornelius Sullivan.

Bird Constables—Charles H. Sisson, Daniel A. Peckham, Henry I. Chase, Jr.

Tramp Constable—Elisha A. Peckham, Arthur A. Brigham, Cornelius Sullivan, William H. Sisson.

Liquor Constable—Reuben Wallace Peckham.

Health Officer—Isaac T. Smith.

Officer to take Charge of Burial of veteran soldiers and sailors—Charles Peckham.

Coroner—Benjamin W. H. Peckham.

Forest Warden—James E. Wilson.

The Council adjourned to meet April 24, at the town clerk's office.

While on his milk route Monday morning Mr. George Irish was badly bruised by the runaway of his horse on Van Zandt avenue, Newport. He was coming out of a house when his horse was frightened by some unknown object and started to run. Mr. Irish endeavored to climb into the wagon, but, failing, seized the reins and in trying to stop the horse was thrown, the wheel passing over his foot and ankle. He was much bruised and wrenched, but no bones were broken. The horse ran about a mile before it was caught. About 40 quarts of milk and a number of eggs were spilt and a portion of the harness was broken. Mr. Irish returned early to his home and later had his ankle dressed by a physician, so that he was able to go on his milk route this morning, as usual, although he is stiff and lame and suffering a great deal. The horse has always been a steady, quiet animal and no cause could be found for the runaway.

Mrs. Emmie Le Valley, Mrs. Carrie Carr and Miss Brown are spending the day in Fall River.

The offering at St. Columba, the Berkeley Memorial Chapel, on Confirmation Sunday, exceeded $75, the largest ever taken at this church for missionary purposes. The offering Easter Sunday was more than $60.

Mr. and Mrs. W. Clarence Peckham and their son, Harold, are visiting in Boston.

Mrs. John D. Blair of Berkeley avenue is entertaining her sister, Mrs. Thomas Shea, and the latter's grandson, Kenneth Shea, of Providence.

THE PELICAN NURSE.

Motor-Driven Catamaran, for Use With Lieutenant Willoughby's New Aeroplane.

The Tropical Sun of West Palm Beach, Fla., announces an addition to the fleet of Lieutenant, H. L. Willoughby, of this city and Sewall's Point, Fla. This is a motor-driven catamaran and has a strange name, Pelican Nurse. There is a reason for this name, however, and also for a double catamaran hull. Lieutenant Willoughby had the new craft built as a "nurse" for his new aeroplane Pelican, now under construction, and which will use the new boat as a tr[illegible] platform from which to op[illegible] It is undoubtedly the first boat [illegible] for use as the nurse for an aeroplane. The new craft is made up of two narrow hulls, of the catamaran type, similar to the one he used in this harbor. These are joined to make a platform more than 10 feet wide. The boat is driven by a 30-horse-power automobile engine and gave a satisfactory performance on her trial trip.

The new aeroplane which Lieutenant Willoughby is building, and which will be similar to the War Hawk except as to size, which will be but one half that of the War Hawk, will soon be ready and will be tried out from the Pelican Nurse, the appropriateness of whose name is thus demonstrated.

PORTSMOUTH.

Easter Election at St. Paul's Church—Illustrated Lecture on Home Missionary Work.

[Regular correspondence of The News.]

The Easter election of St. Paul's Church was held Monday evening, with the following result:

Senior Warden—Benjamin S. Anthony.

Junior Warden—Franklin Porter.

Vestrymen—John F. Chase, B. Archie Chase, Colby C. Mitchel, Herbert B. Ashley, William [illegible] Anthony, B. Earl Anthony.

Treasurer—William B. Anthony.

Secretary—B. Earl Anthony.

Auditor—Franklin Porter.

Delegates to Diocesan Convention—Franklin Porter, William B. Anthony, B. Earl Anthony.

Delegates to Providence Convocation—Franklin Porter, William B. Anthony, B. Earl Anthony.

Substitutes to each—Benjamin S. Anthony, Colby C. Mitchel.

Monday evening at the Christian church Rev. Dr. Oliver W. Powers, home mission secretary of the Christian denomination, gave a lecture illustrated by lantern slides, on the work the denomination has accomplished in the mission field, to a fair-sized gathering. He prefaced his lecture by giving a brief account of the history of the Christian church, records still extant in Swansea giving its beginning as 1600 and the first well established church being formed in 1794 and bearing the name of Republican Methodists.

The slides were largely devoted to the pictures of men prominent in the official work of the denomination, South and West, and to a large number of fine edifices. The mission in Japan is under Rev. Mr. McCoy, a schoolmate of Rev. Mr. Loucks of Portsmouth, and has been established about 30 years. The pictures of several small colleges in the Western states with their officers were given. Others are the Christian Biblical Institute, and Defiance College, in Ohio; Elam College, North Carolina, and Union College. Nearly 60 pictures were given. The lecture was free, a contribution being taken for the benefit of the missionary work.

A large congregation was present at the Easter service at Holy Trinity. The rector, Rev. James H. Dennis, was presented with a pair of gold cuff links and a sum of money. His surprise was so great that he could say but little, except to thank the congregation for the gifts. Monday evening a meeting of the congregation was held for the purpose of organizing a building committee for the new church edifice, which is to be erected in the near future.

The attraction of a concert at the Methodist Episcopal Church made the congregation at the Friends' Church Easter Sunday evening appreciably smaller, but the chorus gave a fine rendering of "Christ the Lord is risen today."

Mr. and Mrs. James Harrington of Newport were guests Sunday of the latter's parents, Mr. and Mrs. Edward P. Macomber.

Mr. Walter Hazelton of Boston was guest Sunday of Mr. and Mrs. Arthur Smith, as were also the latter's parents, Mr. and Mrs. Samuel A. Carter, and her aunt, Miss Kate L. Durfee.

Captain and Mrs. Philip Grinnell of Tiverton were guests Sunday of their daughter, Mrs. Pardon Gray, and family.

Mr. and Mrs. Gideon W. Almy and their son were guests Sunday of Mrs. Almy's parents, Mr. and Mrs. Owen Reilly.

Work which has been stopped for some time on the buildings at the Rhode Island Coal Company's works was resumed Monday.

Dr. and Mrs. Francis P. Conway spent Saturday in Providence. They found Miss Emily D. Sellew slowly improving.

It has been learned that Mr. Gularte, before leasing his house to Rev. Mr. Lawrence, had leased it to another man.

SHOOTING AT KITES.

Excellent Results Reported, by Captain Fullam of the Mississippi, from Recent Tests.

Captain William F. Fullam, commanding battleship Mississippi, has sent to Secretary Meyer his report of the experiments with kites, repelling simulated attacks of aeroplanes, which were recently conducted on the Mississippi. The report is as follows:

"Several kites were made of box shape, length four feet, width two feet. A team of 10 bluejackets fired at these kites from the quarter deck. The kites had a great deal of plunging motion at the time of firing and were distant from 500 to 700 yards. The team of bluejackets fired volleys and brought down a kite at the end of the third volley, the towing string having been hit. This first kite sailed away and could not be recovered, so it was not known how many hits were made.

"Another kite was then sent up and fired at under similar conditions. A total of 160 rounds were fired very rapidly, and 40 hits were made, several of these hits cutting the braces and frames. As the bunting covered not more than three fifths of the total area of the kite, as presented to the ship, it gave the excellent result of 40 hits out of 160 shots, an area of about five square feet at a rapidly plunging target 500 to 700 yards distant in the air.

"As the service rifle has great carrying power, and as any number can be furnished the men on board, it is reasonable to believe that an aeroplane 1,000 yards away would stand no show if only the service rifle were used.

"The Mississippi is considering the use of three-inch guns for this kind of attack, and is studying the necessary modification of the mount."

RHODE ISLAND LIGHT CHANGES.

Under the current issue of "Notice to Mariners," sent out by the bureau of lighthouses of the Department of Commerce and Labor, two items relative to Rhode Island waters appear.

One relates to a change in the characteristic of the fog signals at the Warwick light station in Greenwich bay. This change is made effective about April 25, and after it is made the signal will sound thus: One blast, three seconds; silent, 12 seconds; blast, three seconds; silent, 12 seconds.

The other change refers to the Pomham Rocks Light station in the Providence River, and is merely a correction [illegible] The description should [illegible] the notice: "Square tower [illegible] of front of dwelling with [illegible] roof; lantern black; tower and [illegible] being white, trim lead color, roof red. Fog bell house southwesterly of building."

ROYAL BAKING POWDER

Absolutely Pure

Makes Home Baking Easy

Royal Baking Powder helps the housewife to produce at home, quickly and economically, fine and tasty cake, hot biscuit, puddings, the frosted layer cake, crisp cookies, crullers, crusts and muffins, fresh, clean, tasty and wholesome, with which the ready-made food found at the shop or grocery does not compare. Royal is the greatest of bake-day helps.

A SPRING POEM.

[Dora M. Hepner, in National Magazine.]

An apple blossom—just awake to life;
The sun, the wind, two enemies at strife;
The apple-blossom's heart, the prize to be,
For him who gained the early victory.

Then wind, with eager accents, loud and strong,
Approached the blossom with his lover's song.
He tried to break the petals from their hold
So closely on the blossom's heart of gold.
But all in vain—the more he puffed and blew,
The blossom her pink petals closer drew.

Then sun came out so gently and so warm,
The blossom knew that he could bring no harm.
His brightest rays he sent, his warmest kiss,
Which thrilled each petal pink with rosy bliss,
And, blushingly, her petals fell part,
And to the sun revealed her golden heart.

But wind was not content to loser be,
And he began to laugh in mockery,
Ruthlessly he tore the petals from their stem—
Flung them upon a breeze, and captured them!
But there remained what wind had never won—
The blossom's heart, still golden in the sun!—

FANCIES.

Policeman—You've been begging. Now you just accompany me.

Organ-grinder—With pleasure, sir. What song would you like?—[Pele Mele

Tommy de Peyster—My brother made ugly faces at you yesterday and you didn't darst to fight. You pretended you didn't notice 'im.

Eddie Tuffnut—I didn't either. I thought they was natural. —[Chicago Daily News.

"Dear Clara," wrote the young man, "pardon me, but I'm getting so forgetful. I proposed to you last night, but really forget whether you said yes or no."

"Dear Will," she replied by note, "so glad to hear from you. I know I said 'no' to some one last night, but I had forgotten just who it was."—[London Opinion.

Ambitious Author—Hurray! Five dollars for my latest story, "The Call of the Lure!"

Fast Friend—Who from?

Ambitious Author—The express company. They lost it.—[Woman's Home Companion.

"Many congratulations, Herr Zwengerl! I hear your wife presented you with twins yesterday."

"Oh no, it wasn't me. It was the other Zwengerl."

"Then I congratulate you very heartily."—[Fliegende Blatter.

Mrs. Highup—The judge decreed that they should be separated, never to see each other again.

Mrs. Blase—Are they?

Mrs. Highup—Yes. They are living next door to each other in a New York apartment house now.—[Puck.

Domestic Life in Boston—The maid—"If you please, ma'am, Master Jimmie has busted th' parlor window, and Miss Jane has hit Mr. Jingles with a stone, an' Master Bobbie has bit a strange little girl in the arm." The mother, wearily—"That will do, Jane. It is not well to take the inconvenient activities of normal children too seriously."—[Cleveland Plain Dealer.

COMFORT FOR SORE HANDS AND FEET.

Cuticura soap, assisted by Cuticura ointment, is superior to all other skin soaps for preserving the hands, preventing redness, roughness and chapping, and imparting in a single night that velvety softness and whiteness so much desired by women. For those whose occupations tend to injure the hands or who suffer from dry, fissured, itching, feverish palms, and shapeless nails, with painful finger-ends, Cuticura soap and Cuticura ointment are wonderful. They are equally successful for tired, aching, irritated, itching feet.

REACHING THE SPOT.

It Can Be Done, So Scores of Newport Citizens Say.

To cure an aching back,
The pains of rheumatism,
The tired-out feelings,
You must reach the spot—get at the cause.

In most cases 'tis the kidneys.

Doan's Kidney Pills are for the kidneys.

John L. Cookinham, 20 Poplar St., Newport, R. I., says: "I was greatly benefited by Doan's Kidney Pills, procured at Wright & Hay's Drug Store and can therefore recommend them. I suffered almost constantly for two years from kidney complaint. There were such terrible pains in my back at times that I could scarcely turn over in bed and many nights I could not sleep at all. Doan's Kidney Pills went directly to the seat of my trouble and at once brought relief."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

THE NEWS IN PROVIDENCE.

The Daily News is on sale in Providence the evening of publication at Union Station and at the Rhode Island News Company, 50½ Weybosset street.

STILL NO NEW POLICE STATION.

It is a matter for great regret that the Representative Council took no definite action for the erection of a new police station. The matter has been before the public long enough for the members to know the need of a new building. It has been considered by committees of two Councils, and the reports presented gave a comprehensive view of the situation, so that any member who is not familiar with the subject has only himself to blame. It was quite evident at the meeting that a considerable number of Councilmen are still in favor of the Market Square site, in spite of the fact that the Representative Council last year twice voted down a proposition to erect a new building on the location of the old, and at the beginning of this year a committee was appointed to report a site other than that present. These few were sufficient to net the part of the dog in the manger, to prevent a decision in favor of either of the two sites presented by the majority and minority of the committee. This is not doing the city's business in a proper spirit. Newport should have a new police station—no one denies the need—and the sooner the matter is settled the better.

AGAINST THE PROPERTY QUALIFICATION.

There really seems to be not only a possibility but also a probability of the passage of the amendment to the constitution abolishing the property qualification as an essential to voting in this state. The measure is before the house as a special order for Wednesday, and both Republicans and Democrats have expressed confidence that it will be approved in some form by both the House and the Senate. Just what that form will be is not quite clear, but there is good reason to believe that the educational test of ability to read and write one's name will be included in the final draft, though it seems likely, too, that it may be made to apply only to the cities and not to the towns. That the bill should receive endorsement in any form as more than seemed possible a few weeks or even not many days ago. Those who have been fighting hard for it are quite jubilant over the situation, being pleased not only with the prospect of the passage of the measure but also with the opportunity which will be afforded to put the Republicans on record on the proposed amendment.

It is to be remembered, however, that the victory will be only partly won if the measure is adopted by this legislature, as it will need to be passed also by the next General Assembly before it can be referred to the people for endorsement. It will be necessary, consequently, for the advocates of the amendment to work for the election of a legislature next year which will favor the extension of suffrage to all citizens who can pass the slight educational test proposed. The main necessity in order to make secure the election of such a legislature is a heavy registration by those whose votes are now dependent upon the registration of their names in the city or town where they reside. This fact is not likely to be lost to sight by the political leaders on either side and it may be expected that the registration books in all parts of the state will be well filled this year, whatever the action of this legislature upon this amendment may be.

WOMAN SUFFRAGE DEFEATED AGAIN.

The woman suffrage bill has met its usual fate. For weeks the advocates of the measure to permit women to vote for Presidential electors have been kept on the anxious seat and given more or less encouragement, with the final result the same as for every year since the agitation was begun. The method of killing the bill may have differed somewhat from year to year, but there has been no variation in the effect. Sometimes the legislators who were toying with the measure have allowed it to go through one branch, only to give it a quietus in the other, while at other times it has been given the death stroke in the first body which acted upon it. In practically every case, however, the women who are asking for the suffrage to the extent provided in the bill have been permitted to attend hearings and express their views, and when the legislators have tired of dallying over the matter have quietly put it to death. This year the agitation was as great as ever, but the measure did not receive the endorsement of even a single branch.

If these women really desire the right to vote it would be better for them to ask more than they do now. They probably would not obtain any more than they receive at present, but they would at least show that their demand for the suffrage is genuine. It is a small matter to ask for the right to vote simply for Presidential electors. The idea has been that if they could secure this privilege it would be an entering wedge for the demand for more extended suffrage. This theory has not worked very well, as the women have not secured the entering wedge and do not seem any nearer doing so than they were at the beginning of their crusade. Why not start anew next year with a demand for a more extensive suffrage for the right to vote for members of the school committee, which has been granted to women in a number of states, or even for full suffrage? Such a demand if refused would not injure the cause any more than the denial of the slight suffrage boon now asked, and it would indicate that the women are in full earnest and desire something really worth while in the voting line.

PRACTICAL EDUCATION.

A Philadelphia parent writes to the Ledger of that city that his daughter has brought home for solution the following conundrum which is alleged to be a problem in arithmetic: "A man buys two watches for the same price. One he sells at a gain of 25 per cent, the other he sells at a loss of 25 per cent, and sustains a loss of $10 on both transactions. What price does he get for each watch? He goes on to say, "My girl is taking a business course and I would like to know if this is a practical sum; that is, one that she is likely to meet with in any line of work?"

This parent's general attitude is very much like that of the man who didn't wish his boy to waste time studying geography because he would not be a sailor, and the mother who saw no use for her daughter to study arithmetic because she would never keep shop. There was another parent whose son brought home a conundrum proposed by his teacher involving the number of bottles in a keg of beer, and felt obliged to buy a keg of beer and decant it; he wished teachers would propose problems that did not involve so much expense. It would be cheaper to solve the problem with water.

If we divert attention from the parent to the "sum," the first impression is that its educational value is very much like that of the age of Ann, which ravaged the country a few years ago. Looking at its terms more closely we are led to suspect that the daughter or her father had the elements of the proposition somewhat mixed, unless it is one of those lamentable catch questions occasionally propounded by unprincipled teachers just to wear out the gray matter in the heads of their pupils. If the two watches cost the same amount, 25 per cent of one must be the same as 25 per cent of the other, and at some risk of confessing our lameness in arithmetic we hazard the idea that things which are equal to the same thing are equal to each other and that the loss and gain must have been identical. One cannot help feeling for the father, who sighs: "Oh, for some practical, sane teaching in our schools, that would not deprive us of the company of our children, who have to puzzle their childish heads over work and problems that are of no earthly use to them."

AN "UNDESIRABLE IMMIGRANT."

The immigration officials are carrying things with a pretty high hand. They are arresting and deporting persons in a manner which on more than one occasion has elicited extremely unfavorable opinions from federal judges, but as the law appears to deprive the alien of the right to the writ of habeas corpus the judges have found themselves unable to interfere.

The immigration officials have now taken a step which may involve us in a controversy with a foreign country. A woman of French origin has been arrested and is in process of deportation as an undesirable immigrant, though she has been in this country 10 years. In a somewhat similar case a judge held that a man could not be deported for carrying on the business of gambling because, whatever his character and habits, they had been formed under our laws and we were responsible for him. In the present case the woman may have been an undesirable immigrant when she arrived, but if that was 10 years ago we ought to have learned about it and expelled her within a reasonable period after her arrival.

It is proposed to send her back to France, but if she is an undesirable person France may resent her return. France is quite likely to set up the defense that if she has been in this country 10 years her native country is no longer responsible for her. We received her and kept her 10 years, and she has certainly not improved in that period. France may assume the attitude of a merchant who refuses to accept the return of damaged goods which have been long out of the store.

We have been complaining that foreign countries were assisting their criminals to emigrate to the United States. Now we are undertaking to do the same thing and to pay the passage back to France of a person whom we do not desire, and presumably France does not desire, either. It would seem to be our duty to deal with our own criminals, or those who have been domiciled here for a decade, instead of shipping them abroad.

Newport has lost another honored citizen in the death of Postmaster Landers. He had made the postoffice of today very largely what it is, by this thorough, systematic business methods, and in his private affairs always held the highest respect of the community. While he may have had political enemies, this was only because he and they were on different sides of the battlefield, and many of those who differed from him politically were his warmest personal friends. He was a thorough Newporter and always worked hard for the best interests of the city.

President Taft feels that he has done all that can be done by the chief executive to control the situation along the Mexican border, and he and his advisers believe that now Congress must say whether the situation is grave enough to warrant intervention and its consequences. The gathering of the troops in Texas may turn out to be something more than a mobilization camp after all.

The management of the New York, New Haven & Hartford railroad has cut out all stops between Tiverton and Newport for the train due in Newport at 10:50 p. m., thus recognizing a popular demand. If now the same thing were done in the case of several other trains into Newport, travel to this city would be much more comfortable than at present.

The reunion of the surviving members of Company F was a remarkable gathering of men, who 50 years ago left the Artillery armory for the protection of their country. Seventeen of the 28 survivors of a company of 115 is an unusually large proportion after so long a lapse of years.

New York will find it difficult to select a successor to Fire Chief Croker. He is almost universally regarded as the foremost fire fighter in the country, and has conducted the department as free from political favor as it is probably possible for any one to do in that city.

While there is supposed to be no politics in the selection of members of the Representative Council, politics is unquestionably being played for all it is worth in the transaction of the city's business.

The revolution in Mexico is far from ended. Instead, it seems to have reached a serious stage.

RENOVATING OYSTER BEDS.

[The Strand.]

The largest known shell "mountain," containing as it does millions of shells and hundreds of thousands of bushels is the property of the H. C. Rowe Company, of New Haven, the largest wholesale oyster firm in the world, their beds covering some 70,000 acres of salt-water bottoms. Such shells are far from being useless, however, for they are one of the most important adjuncts of the oyster industry, and without them the business would dwindle to tiny proportions. Unless the spawn of the oyster has some clean, smooth surface upon which to attach themselves they die, for they are very delicate in the first few days of their existence, and require beds as clean and sweet as do the most delicate human babies. It is while the shells are piled up in these great mountains that they are cleaned and freed from everything in the way of dirt and bits of adhering oyster eyes, by the air, rain, and sunshine. When the cleaning process is finished they are loaded upon great steam dredges and scows, and then are towed out to the beds and carefully spread over the bottom ready for the "set," as the fixing of the spawn to their surfaces is called. After they have served their purpose for one season's crop they are taken up and brought back to be again piled and cleaned.

AROUND RHODE ISLAND.

Three Men Indicted in Connection With Narragansett Pier Gambling.

Captain Buxton Designated to Go to the Mexican Border—The Kingston Savings Bank's Affairs.

"Doc" William E. Arnold, Timothy J. McKenna and John Powers were indicted Monday on two charges by the grand jury of Washington county. In one case they are accused of being common gamblers and in the other of keeping a gambling place or a "gambling nuisance." These men are not in custody and capiases were ordered issued by Judge Stearns for the apprehension of the defendants. It is reported that "Doc" Arnold is in Europe. McKenna is alleged to be one of the officers of the Narragansett Club, and Powers, who is colored, is said to be the door man. John Cross, who made the raid, repeatedly referred to this man as taking a conspicuous part at the club rooms the night of the raid. Besides the Pier gambling cases, the grand jury returned three other indictments, two against John McArdle, both for nuisance, and one against Silas G. Wright, also for nuisance. These cases also were brought by John G. Cross.

Captain G. Edward Buxton, Jr., Third company, coast artillery corps, Rhode Island militia, will go to the Mexican border in connection with the military activities there, representing Rhode Island from the First district of the National Guard. His appointment was announced by Adjutant General Charles W. Abbot Monday. He was prominently mentioned as one of the applicants to go South when the war manoeuvres were first instituted, but the fact that Captain Richards and his brother were the first to file their applications gave them the preference. Captain Buxton is a graduate of Brown University in the class of 1902, and his connection with the state militia dates back to his college days. May 15, 1900, he was commissioned second lieutenant, Company A, and June 13, 1901, was promoted to first lieutenant. His resignation from the service was accepted December 7, 1903, and was made to enable him to enter law school. Concluding his college course he took up newspaper work, being connected with the reportorial staff of the Providence Journal for more than a year, and then entered the Harvard Law School. He was graduated and admitted to the bar, and a short time after became associated with the Title Guarantee Company of Providence, December 14, 1908, he was elected captain of the Third company.

Bank Commissioner William P. Goodwin appeared before Judge Stearns in the superior court at Kingston Monday in connection with the affairs of the Kingston Savings Bank, which has been in his hands as receiver since April 17, 1909, and announced that the institution probably would be able to resume business in a year. The statement presented to the court by Mr. Goodwin shows that, while there has been a consistent revaluation of the holdings of the institution, the affairs have been so economically and judiciously conducted that the deficit of $28,931.59 at the time the bank came into his hands has been reduced to $3,339.68, showing an improvement of about $25,000. The report of the commissioner was accepted, and the receivership was continued until the September term of the court. The report was offered at this time to show to the court the progress being made toward the rehabilitation of the bank, which has been the plan of the commissioner ever since he took possession under the law on June 11, 1909. At the time of taking charge of the bank Mr. Goodwin states that the assets, including bonds, stocks, mortgages, real estate and other resources, had a book value of $302,378.87, with an actual valuation of $246,178.67. The liabilities, including deposits of $272,297.63, showed a deficit of $28,931.59. As compared to this statement is that of the condition at the present time, showing assets with a book value of $277,956.73, and an actual value of $271,270.58, while the liabilities show an actual deficit of only $3,339.68.

Rev. Richard King Wickett, for nearly 19 years pastor of the Franklin Congregational Church at Pettaconset, read his resignation at the Easter service and will conclude his labors at the church June 30. By reason of a change in the beginning of the church year, his nineteenth year would not be concluded actually until next November, but his letter requests that his term end at the close of next June, the end of the present pastoral year. The reason he gives for his action is embodied in his letter of resignation in these words: "I am weary, and feel that I must have a change and rest, and so I tender you my resignation as pastor to take effect at the close of the present pastoral year, June 30." Mr. Wickett has recently bought a house in Norwood and it is understood that he will make his home there. It is understood also that he will not engage in active preaching, but will probably follow his profession at times. Mr. Wickett is 64 years old.

With her one hundred and first birthday only three days away, Miss Eliza Bullock of Bristol, who celebrated the rounding out of a full century of life a year ago, was stricken by an apoplectic shock at her nephew's home at Bristol Monday. It is believed that she will partially recover, in spite of her great age, and that some of the plans made for the observance of the anniversary may be carried out Thursday. During all Miss Bullock's long life she has been in extraordinarily good health except when several years ago, she was burned on the face and neck during a fire at her home. She suffered a bad attack of the grip a few weeks ago, but had recovered and was looking forward to Thursday of this week with keen anticipation of the sight of several of her old friends whom she had not seen since a year ago. Miss Bullock comes of a family in which long lives have been the general rule. She is a daughter of the late John Bullock, and was born in Bristol April 20, 1810.

Beverly S. Lake, 46 years old, for 24 years proprietor and editor of the Real Estate Register and Rental Guide, member of the Providence common council for several years, died Sunday as the result of a gradual decline, which began nearly three years ago. Mr. Lake has not been actively engaged in business for nearly two years and had gradually given up all his business and social activities. The end was not unexpected. He was born in Portland, Canada, and received his early education there, coming to Providence in 1884. He had not been there long when he originated the idea of conducting a real estate paper and carried it out successfully, his being practically the only publication of the kind during the nearly quarter-century that he was at the head of it. Mr. Lake was elected to the common council in 1898 for the first time, and re-elected three times, serving continuously until 1903. During a portion of his service he was chairman of the finance committee, and took a prominent part in the conduct of the city's business. For a number of years up to the time of his death he was a member of the Rhode Island Press Club and for a time was its president. Until the last annual meeting he was secretary of this organization. He was a member of What Cheer Lodge, A. F. and A. M., and Calvary Commandery, and during a long period was affiliated with the West Side and Providence Central Clubs.

Members of the First Universalist Church of Providence celebrated its ninetieth anniversary, and incidentally its emancipation from debt, Monday evening. The former had been planned for, but the latter feature came as a surprise to many in the form of an announcement by the pastor, Rev. F. W. Gibbs, that $11,120—$5480 more than enough to pay off the floating indebtedness of the parish, has been raised by subscription since February 17. Rev. Mr. Gibbs was received with a hearty demonstration. He spoke of his gratitude for the generosity and promptness of the subscribers, and told of the assured progress of the church, and described in detail the rapid growth of the fund. Rev. Henry I. Cushman, pastor emeritus, gave reminiscences of his long service at the church and congratulated the members on their latest accomplishment. Addresses in congratulatory vein were made by Rev. Charles Conklin, state superintendent of Universalist Churches of Massachusetts, and Roger F. Etz, national head of the Young People's Christian Union.

CONSTRUCTING QUARTERMASTER'S OFFICE, Fort Adams, R. I., April 17, 1911. Sealed proposals, in triplicate, will be received in this office until 10 A. M. May 11, 1911, for construction of sea wall, excavation, filling, etc., at this post. Plans and specifications can be seen here and in office of Chief Quartermaster, Governor's Island, N. Y., or will be sent on deposit of $5 in this office to insure prompt return. Information on application. The right is reserved to reject any or all bids. J. J. Thomas, 2nd Lieut. C. A. C. Constructing Q. M.

THE WEATHER.

BOSTON, April, 18.—Forecast for Boston and vicinity: Fair tonight; Wednesday; unsettled; moderate westerly to southerly winds.

WEATHER CONDITIONS.

The weather is fair this morning, with much sunshine in the Lake region and along the Atlantic slope. In the middle valleys and Texas, however, there is much cloudy, unsettled weather and light to moderate rains have been reported as falling during the past 24 hours in those districts, and also on the northern Pacific slope. The pressure is slightly above the normal in all sections east of the Mississippi river. The western trough of depression has advanced slowly and now extends from Minnesota southwestward to Texas. The pressure is slightly above the normal in the upper Missouri valley, and on the middle Pacific coast, while in the British northwest a disturbance appears to be central at Kamloops, B. C. The temperature along the Atlantic slope is about the same as that of Monday morning. It has risen considerably in the upper Ohio valley, the upper Lake region and the Mississippi valley and also on the northern Pacific slope, but has fallen to below the seasonal average throughout the entire Rocky Mountain plateau. In New York at 8 a. m. it was 38, Washington 42, Jacksonville 62, St. Louis 56, Chicago 54, Des Moines 52, Kansas City 52, St. Paul 52, Denver 40, San Francisco 50 and Portland, Oregon, 42.

ARRESTED FOR MURDER.

Former State Senator Frank Littlefield of Block Island in Jail.

Charged With Killing His Mother, Who Was Recently Found Dead at Her Home.

Former State Senator Frank Littlefield of Block Island, who was arrested by Deputy Sheriff Frank L. DeBlois Monday afternoon, and locked up at the Newport County jail, charged with the murder of his mother, Mrs. Anne Elizabeth Littlefield, was arraigned in the district court this morning before Judge Franklin. Littlefield pleaded not guilty and was committed to jail, the character of the charge not being bailable by the district court. Messrs. Burdick & MacLeod are counsel for Littlefield and the case was continued one week.

The writ of arrest alleges that April 1 the defendant used a club on the head of Mrs. Littlefield, his mother, and struck and abused her with it. Littlefield made no statements in court this morning other than to declare his innocence. The arrest was made upon a warrant sworn out by Coroner Daniel A. Mott of New Shoreham and served at the home of the late Mrs. Littlefield. Deputy Sheriff DeBlois was assisted in making the arrest by Inspectors James Ahearn and John T. Hazel of Providence.

Mrs. Littlefield died at her home in Block Island April 11. She was found lying dead at the foot of the cellar stairway, with her neck broken. As the body was about to be lowered into the grave Sunday in the little island cemetery officers appeared with directions from Attorney General Greenough forbidding the burial and ordering the body placed temporarily in the receiving tomb. Two ugly wounds were found on the head and this discovery, it is understood, induced Attorney General Greenough to interest himself in the case.

Mrs. Littlefield, who was 72 years old, was the widow of Lorenzo Littlefield, who died five weeks ago. She lived at her house with her grandson, Clarence Littlefield, the 20-year old son of Frank Littlefield, the prisoner; Courtland Westcott, aged 23, and William Rose, a Portuguese boy whom she had taken out of a home in New Bedford some time ago. The prisoner is 45 years old and served as state senator for New Shoreham in 1888-90.

Inspector Heran and Ahearn of Providence are to leave for Block Island again Wednesday morning to investigate the case further.

EVANS AND CORBETT.

Divide the Honors at the Old-Time Honey Boy Minstrel Performance.

The Honey Boy Minstrels, headed by the well known colored comedian, George Evans, played to a full audience at the Opera House Monday evening. That Evans has lost none of his old hold on the public was evident from the reception he was given on each appearance in his ridiculous, mirth-creating stunts. It was in the piece, "The Firemen's Picnic," that his efforts were most appreciated, however, although he did not need to work very hard at any time to keep the audience in an uproar. Merely his presence on the stage was enough to do that.

The performance opened with a typical minstrel scene, showing the entire company in the "Crimson Trellis." Vaughn Comfort, a veteran minstrelist, held the interlocutor's seat, changing later with James J. Corbett. The introductions were introduced in rapid succession, and these songs were rendered: "Oh Mr. Moon," Pierce Keegan; "The Jungle Band," Clarence Marks; "Just Because I Love you Dear," Tom Kane; "Valley Flower," and "My Heart Has Learned to Love you Now To Say Goodbye," James Meehan; "Where the River Shannon Flows," Matt Keefe; "Where I gathered the Myrtle with Mary," "My Darling Nellie Gray," Vaughn Comfort, and "Way Down in Georgia," John King.

Evans then came out alone, dressed in his characteristic white Honey Boy suit and hat, and made his sweet simple song, "Little Maggie Brady," the favorite tune of the evening. His many monologues and sly take-offs were a hit, for he had apparently taken pains to lay in a good stock of them, referring to local conditions.

Not the least attraction of the evening was the appearance for the first time in minstrels of James Corbett, the ex-champion prize fighter. He shared in the honors with Evans, coming once to the footlights to give his view of why Jeffries did not come up to expectations at Reno, his information being of course first-hand, since he was his trained and advisor for two months before the fight.

In the "Scenes from Blackville" were good "mammy songs" and familiar plantation tunes were heard. The "Firemen's Picnic" was put on for final act, lending a satisfying variety to the performance, with George Evans as "Snowball Livingston" the center of all the fun and Sam Lee the cucumber and cause of all the fuss.

MALTROTTI—SHEEHAN.

Marriage In St. Mary's Church Followed by an All-Day Reception at the Home of the Bride.

In St. Mary's Church this morning Miss Julia L., elder daughter of Mr. and Mrs. John H. Sheehan, was married to Mr. Joseph Maltrotti, Rev. William B. Meenan performing the ceremony. During the nuptial mass Mr. Albert Commette was at the organ, the altar being attractive with floral decorations.

The bride, who was given away by her father, wore a pretty gown of white satin with Duchesse lace trimmings. Her tulle veil was caught with orange blossoms and she carried a bouquet of lilies of the valley tied with white streamers. Her only ornament was a pearl pendant, the gift of the groom. Miss Etta Tripp, as bridesmaid, wore pink mousseline with a large black picture hat and carried a bouquet of pink roses. The groom was attended by Mr. Harry Scoville as best man.

After the wedding, at the bride's home on Green street a reception followed for the remainder of the day, during which many called to extend congratulations to the young couple.

Mr. and Mrs. Maltrotti received a number of handsome and useful gifts, the best man had as a gift from the groom a pearl stick pin, and the bride gave to her bridesmaid a pearl brooch. Among the guests for the wedding was Mr. Michael Sheehan, an uncle of the bride from New York, formerly a well known Everyman here.

This evening Mr. and Mrs. Maltrotti will leave on the boat for New York and Baltimore, making a visit while away to the groom's home in the latter city. They will make their home in Newport upon their return. Mr. Maltrotti is an architect [illegible]

CONTRACT FOR DUSTOLINE.

By Its Use on the Streets the City Will Save Nearly a Cent a Yard Over Oil.

The Board of Aldermen held a special meeting Monday evening, when Street Commissioner Sullivan reported that he had looked over the bids on oil for the streets. He said that, taking his report of last year of the cost on dustoline, he found that the city could save about .8 of a cent a yard less than the best offer made by the bids.

Mr. J. S. Lamson, Jr., was present and ready to speak on the dustoline matter, but the Board took the street commissioner's report and voted to accept the bid of J. S. Lamson, Jr., for supplying dustoline at 6½ cents a gallon, he to furnish a tank with a capacity of 6,000 gallons, which will be placed in the freight yard, permission having been obtained by the city for such location. This tank will be owned by Mr. Lamson but will be used by the city, and will save demurrage on cars, as it will hold practically one tank car of oil.

The matter of the new sewers in the Kay Street district was taken up, on the communication from the Gibbs Land Company, and the city solicitor was directed to secure the deed from the company for the lot for a settling tank and pump, and also the rights of way across private lands for the proposed sewers.

The matter of extending the sewers to the south had been considered by the street commissioner, who said the city would be obliged to care for that section as well as the one to the north. He hoped he had enough money to cover that district, but if he had not he would ask the Council for enough to extend the sewers to the houses to the south of Water Works road.

TWO STILL ALARMS.

A still alarm was sounded at 3.59 Monday afternoon for a fire in the ice box at F. B. Coggeshall's market. The box had been leaking and the ice was being taken out to permit repairs to be made. The man who was working in the box, pushing the ice forward, had a candle for light, which he placed on a ledge near the door. The candle set fire to the woodwork and the smoke began to penetrate the office. When one of the butchers went to learn what was the matter he found the flames near the door and the man at the far end of the box totally unconscious of what was taking place behind him. The flames worked into the packing and there was some lively chopping by the firemen in the box and in the office to reach the concealed flames and preventing it from spreading under the second-story floor. Twenty minutes sufficed to extinguish the fire.

A still alarm at 12:48 today called Chemical 2 to Anthony's lodge on Harrison avenue, where the first grass fire of the season was on. No damage.

THE FOUNTAIN FOR CAB HORSES.

The fountain for cab horses and dogs, to be placed on Touro Park West, is in a fair way to be installed before the coming summer. The necessary permission has been granted by the Representative Council, the committee appointed has looked into the matter thoroughly and all arrangements have been made to connect the fountain. Additional subscriptions have been received as follows:

Mr. Muenchinger	$5.00
Mrs. Theodore K. Gibbs	5.00
Previously acknowledged	78.00
	$88.00

Subscriptions can be sent to Mr. Thomas B. Congdon, at the Aquidneck Bank.

PRICE OF LOBSTERS DOWN AGAIN

Any one can eat lobsters now—that is, the price is so low that they are no longer a luxury. The wholesale price in Boston dropped Monday to 8½ and 12 cents and the local fishermen were glad to sell the few they caught at retail, at 15 cents. This week 1,700 crates are expected from Nova Scotia and the price will probably go lower. Under these conditions the Greek fishermen are not so sorry the weather has kept them in port, for there is practically no wholesale trade in lobsters. The high price of a week ago drove lobsters off the bill of fare.

LOCAL BRIEFS.

—Cruiser Montgomery has arrived in the harbor from Philadelphia.

—Mr. and Mrs. John Treys are spending two weeks in Lakewood, N. J.

—This morning Mr. Robert Warren and a party of high school boys started for an outing on the Island.

—Chief Gunner's Mate William S. Hicken of battleship Nebraska is visiting his family on Wellington avenue.

—Frederick H. Paine has rented for Mrs. E. S. Cramp her cottage on the westerly side of Bellevue avenue to United States Senator Henry F. Lippitt of Providence for the season.

—Mr. Benjamin J. Whitten and Miss Whitten have returned from Miami, Fla., where they spent the winter. Mr. Whitten will at once begin preparations for re-opening the New York Yacht Club station.

—The St. Joseph's basket ball team will be given a complimentary supper by Rev. Dr. Doran at the Perry House Wednesday evening, in appreciation of the good work the team has done during the season.

—DeBlois & Eldridge have rented for the heirs of the Alfred Smith estate the property on Bellevue avenue, near Spouting Rock beach, known as the Train villa, to George B. DeForest of New York for the season.

—The North Ends, who were defeated last Friday by the Oaklands, came back estrong in the second game of the season, defeating the Stewart Athletic Club to the tune of 7 to 1. The victory was largely due to the

—In the district court this morning a woman was before Judge Franklin, and retracted her former plea and pleaded guilty to abandoning her child. With the understanding that she would support the child, the woman was permitted to go on probation.

—Downing has introduced something new in the way of an awning. It covers quite an expanse of sidewalk, but still rolls up in a pocket, protecting it from the weather, and at the same time draws in its frame, so there is no encumbrance on the front of the building.

—Mrs. Frederic Bronson of New York will arrive Wednesday at the Muenchinger-King, for the purpose of arranging for the opening of "Le Chalet," the Gilbert cottage on Bellevue avenue, which she has rented for the summer. Mrs. Bronson has not been here for several seasons.

—The Board of Health has had printed the rules in regard to the collection of swill and is distributing them about the city. They are the same as the old ones, sent out some years since and probably lost by this time. The board sent them out in anticipation of warm weather, but there [illegible]

NO SITE SELECTED.

[Continued from Eighth Page.]

Clark Burdick as chairman. The lease now in effect between the city of Newport and the Easton's Beach Company was carefully considered and His Honor, Mayor Boyle, and the honorable Board of Aldermen met with the committee and the subject matter was gone over at length.

As a result of the committee's deliberations we have arrived at the following conclusions, which we beg to present, together with our recommendations:

That the beach as now managed is not sufficiently attractive, that the attractions at the beach should be more varied, that the rental now paid is very inadequate. We recommend that durin gthe coming summer, while the season at the beach is at its height, the fact that the present lease expires on the first day of November next should be advertised in the papers and that bids should be asked for the rental of the beach for a term of not less than ten years. We further recommend that the bids should not only include the amount of proposed rental but a list of the attractions that the prospective lessees are to have installed at the beach.

It will be noticed that up to this time no action had been taken on any of these matters.

The committee on telephone contract made the following report:

To the Honorable, the Representative Council of the City of Newport:

Gentlemen: Your committee, appointed under vote of your honorable body of March 13, 1911, to consider the matter of telephone contract between the city of Newport and the Providence Telephone Company, begs leave to report as follows:

The committee organized on March 20, 1911, with the election of Councilman William Paine Sheffield as chairman. It has held several meetings, at two of which President Potter and Local Manager Wright of the Providence Telephone Company were present on invitation, when their suggestions regarding the provisions of new contract were received. The committee has also had for its consideration the report of the special committee of the Board of Aldermen on the renewal of the telephone contract and has given the matter careful attention and study.

As a result thereof, we present herewith a form of contract prepared by the city solicitor, which we recommend for your approval. This differs from the old form of contract in several important particulars, chief of which are the rate of payment to the city, which has been placed at three per cent of the gross earnings of the company in this city, the maximum allowed under the state law, instead of the former rate of one per cent of the gross earnings, and we have left out the provisions of half-rate telephones for the use of the city; the insertion of a clause requiring the telephone company to give bond in the sum of $15,000 for its faithful carrying out of the provisions of the contract, and the duration of the contract was first drawn, but have years, instead of seven, the length of the existence of previous contracts.

In addition we have eliminated some phrases which were important when the contract was first drawn, but have no place in a contract drawn at the present time.

The contract, made according to the ideas of the committee, was read; Mr. Sullivan desired it read and it took the city clerk 10 minutes to read it. Then Captain Cotton said he noticed that the work on the roads must suit the street commissioner, and asked why a clause should not state that the work on wires hould suit the superintendent on wires should not state that the work a reason; this did not give any rights to string wires. Such rights must be obtained from time to time from either the superintendent of wires, the aldermen or the Council, and when such permission is given there are conditions imposed, so that it is not necessary to have them in the contract. The contract was approved and the Board of Aldermen was authorized to execute a contract with the Providence Telephone Company according to the terms decided upon.

The committee on drinking fountain reported that it had organized by the election of Councilman Muenchinger as chairman. It recommended the acceptance of the fountain offered the city, selected the west side of Touro park north of the centre as the site, and recommended that the city appropriate $75 for installing the fountain. The report was received and an appropriation of the amount recommended was made, the Board of Aldermen being authorized to place the fountain at the spot selected.

Then came the police station site matter. There were two reports, a majority signed by John M. Friend, F. M. Hammett and J. Joseph M. Martin and a minority signed by William Williams and H. L. Dyer. There were also resolutions to carry the reports into effect. On account of the length of these reports and the pressure of other matters, and in order to give the reports in full, their publication is postponed until Wednesday's issue.

The chairman took up first, after the reading of the reports, the resolution of the majority of the committee, directing the Board of Aldermen to purchase the Jurgens lot on Mill street at a cost not exceeding $8,001, and a strip of land 150 by 20 feet from Thomas Sharpe at a cost not over $2,700 and to build thereon a police station at a cost of not more than $50,000 for the land and building.

Mr. Williams moved to amend by substituting the terms of the minority resolution. Chairman Burlingame thought the amendment not appropriate to the situation. He said there were two resolutions and if the members voted down one they had the other. It did not seem to make any difference which they voted on first, though he had taken the majority report as first in order and it seemed only right to act on that first, and this was done.

Mr. Lyons suggested a paper ballot for the site, but the chairman heard no second. The viva voce vote on the resolution to adopt the Jurgens site was doubted and a rising vote was taken. The Jurgens site lost—54 ayes, 91 nays.

Mr. J. B. Sullivan moved to adjourn.

LATEST NAVAL NEWS.

Orders to Officers and Movements of Vessels Reported.

(Special despatch to The News.)

WASHINGTON, April 18.—The following orders to officers were announced by the Navy Department today:

Rear Admiral Charles E. Vreeland, detached from the command of the Second division, Atlantic fleet, and ordered home and to wait orders.

Commander William B. Fletcher, detached from the command of the Birmingham and ordered home and to wait orders.

Commander H. P. Jones, detached from the navy yard, Washington, and ordered to command the Birmingham.

Ensign W. W. Bradley, Jr. detached from the Hancock and ordered to the South Carolina.

Ensign A. M. Cohan, detached from the Kansas and ordered to the Louisiana.

Ensign G. L. Casker, detached from the North Dakota and ordered to duty as aide on the staff of the commander of the Second division, Atlantic fleet, on board the Louisiana.

Ensign M. A. Leahy detached from the Connecticut and ordered to the Marietta.

Midshipman E. C. Lange, detached from the Nebraska and will continue treatment at the naval hospital, New York.

Midshipman P. Slingluff, detached from the Nebraska and ordered to continue treatment at the naval hospital, Boston.

Midshipman D. H. Stuart, detached from the Nebraska and ordered to the Franklin.

Chief Gunner T. N. Watson, detached from the New Hampshire and ordered home and to wait orders.

Gunner A. Klingler, detached from the Franklin and ordered to the New Hampshire.

Gunner R. S. Bulger, detached from the Kansas and ordered to the New Hampshire.

Gunner J. H. Bell, detached from the New Hampshire and ordered home and to wait orders.

The following movements of vessels were reported to the department:

Arrived—Eagle at San Juan, Patapsco at Portsmouth, N. H., Potomac at Charleston, S. C., Warrington at Norfolk, Pearrelect at New York, Prometheus at San Diego.

Sailed—Smith, Lamson, Fluaser and Preston, from Norfolk for Solomon's Island; Des Moines, from Norfolk for Tangier sound; Drayton, Roe and McCall, from Annapolis for Tangier sound; Pontiac and Octopus, from New York for Newport.

Lord.

C-B A LA SPIRITE CORSETS

For the Women of Fashion.

The Figure Lines that Underlie the Clothes Must be Correctly built.

A good figure does not mean a figure laced into some semblance of shape. It means a figure moulded by proper training till good lines have become natural. Then the good lines must be carefully protected.

Fashion has turned toward "line"—which means the corset makes or spoils the dress. C-B corsets appeal to any woman's "dress sense" and knowledge of values. Women who may not be wearing them should have their attention called to them. They will find in our corset department all the new models.

We have an expert fitter to fit you perfectly, comfortably and free of charge.

The King-McLeod Co.

AN EXPERIMENTAL MINE.

Government Will Begin Operations in May Near Pittsburg.

WASHINGTON, April 18.—A government-operated mine to be run not for profit, but to obtain scientific data, will begin operations about May 1, when the new experimental coal mining plant at Brucetown, Pa. near Pittsburg, is opened. Scientific men and mining experts will experiment under actual mining conditions to obtain for the United States bureau of mines, information which they hope will be useful in the prevention of such terrible loss of life as has occurred in recent disasters.

The explosibility of coal dust in pure air and when mixed with fire damp and with natural gas will be determined, and a study of explosion waves and methods for preventing and limiting explosions will be undertaken. Tests of all kinds of mining machinery will be made to determine the relative production of inflammable dust by different types of machines in coal cutting. To combat statements of coal operators that conditions surrounding the tests made in the exterior gallery of the bureau of mines testing plant at Pittsburg were not the same as would occur in actual mining operations was one of the reasons for establishing this experimental mine.

SWEPT BY FIRE.

Four Boathouses on Harlem River Burned With Their Contents.

NEW YORK, April 18.—"Scullers row" on the Harlem river, was swept by fire early today. Four boathouses were burned with their contents, including nearly 200 racing shells and two other club structures were damaged. The loss, it is estimated, will exceed $100,000. The burning of the shells may cause the abandonment of some of the regattasscheduled for the coming season. The fire started in the Nassau clubhouse and spread along the river front gutting the building where it originated, and the boat houses of the Harlem Rowing Club, Metropolitan Rowing Club and the Wyanoke Club. The houses of the Crescent Rowing Club and the Bohemian Boat Club were badly damaged. Many valuable trophies were destroyed.

Members expressed doubt of the club's ability to participate in the national regatta at Saratoga. The Metropolitan Rowing Club has entries in the senior eights and the singles in the American Henley to be held at Philadelphia, May 27.

DESTROYED BY FIRE.

City Hall at Scaerbeek Together With Priceless Works of Art.

BRUSSELS, Belgium, April 18.—The city hall at Scaerbeek a suburb of the capital, together with its priceless works of art including notable paintings and gobelins, was destroyed by fire last night. Two firemen were killed during a desperate effort to save some of the contents of the building. It is believed the fire was of incendiary origin.

PANIC AMONG GUESTS.

Explosion and Fire in Block Near Central Hotel in New York.

NEW YORK, April 18.—An explosion and fire early today in a six-story loft building directly in the rear of the Broadway Central Hotel, caused a panic among the 300 hotel guests. They were calmed when it was seen the fire would be confined to the business block. The four upper stories of the loft building were burned out, causing a loss estimated at upwards of $50,000. The cause of the fire was not determined.

THREATENED WITH DEATH.

Democratic Legislator at Albany Unwilling to Change His Vote.

NEW YORK, April 18.—An interesting echo of the recent Senatorial fight at Albany, was heard last night during the dinner of the St. Nicholas Society at Delmonico's, when William Church Osborn legal adviser to Governor Dix, declared in an address that one of the Democratic legislators had been threatened with death unless he changed his vote. Mr. Osborn did not name the legislator remarking, however, that the man had "stuck to his guns."

"He told me" said Mr. Osborn, "that his conscience would not let him vote the other way."

LOCAL BRIEFS.

—Mr. Thomas Dunn is able to drive out.

—Mrs. William Shepley is in Washington.

—Mr. John R. Caswell is here from New York for a few days.

—Mr. Harold Potter is visiting Mr. and Mrs. Newton Adams.

—Gen. Millard Sherman is spending his vacation at Block Island.

—Mr. and Mrs. William H. Mayer are visiting relatives in New York.

—Miss Mary Appleton of New York is at her cottage on Rhode Island avenue.

—Miss Elsie Child and her niece, Miss Emily Child, are spending their Easter vacation in Providence.

—Mrs. F. Roscoe Jonsol and family of New York are at their cottage on Sunnyside place for the season.

—Mr. and Mrs. Clarence E. Gade and their daughter, Hazel Gade, have returned from a visit to East Greenwich.

—Mr. and Mrs. Howard Knowe of Fall River and Charles Knowe of New Bedford spent Easter with relatives here.

—Mr. W. F. Reagan of this city has accepted a position as operator for the Western Union Telegraph Company in Fall River.

—In the superior court in Providence Monday Presiding Justice Tanner heard the petition in the case of A. Livingston Mason, et. al., vs. Earl Potter Mason, et. al., a bill by trustees under the will of Isaac Hantshorn for leave to sell certain real estate in Providence. The court issued a decree granting the prayer of the petitioners.

—The car companies are being hard hit by the weather. They would not only like to put the open cars in service, but the riding is far behind that of previous years, because it takes warmth to bring out the people. Sunday morning and evening double-truck cars were run on the Morton Park line to accommodate the Easter church-goers, but the riding was nothing like what it usually is.

—Another city feature has made its appearance in the construction of the new Army and Navy building. A debris shute has been erected on the Meeting Street side reaching to the top of the building, with connections at each window, where windowways will later appear as the walls are carried up. All building litter will be sent down this shute to carts and hauled away. This is compulory in some places, to save the spread of litter on the streets.

ANOTHER STORY ABOUT MEXICO.

Ambassador Wilson Saw Conditions Similar to Boxer Outbreak.

Telegram to President Taft Said to Express Opinion That Repetition Was Possible.

[Washington Correspondence of The News.]

WASHINGTON, April 17.—That Ambassador Henry L. Wilson became very much alarmed at the situation in Mexico is the latest information regarding the movement of troops to the Mexican border. He saw there conditions similar to those in Pekin when the foreign legations where besieged in the China Boxer troubles and sent such a frantic despatch to the President that troops were at once ordered to go to Texas for manoeuvres.

President Taft in giving the order to General Wood, was careful to say that the troops were not to cross the border until Congress should say so, but he wanted them there ready to move if it became necessary. It would not have appeared very well on paper or in an official statement, to say that the government Diaz had erected was in such bad shape that it could not guarantee protection to the foreigners and was no better than the Chinese government at the time of the Boxer troubles. The document in the case will not be made public unless a fight in Congress makes it necessary.

William Sulzer, chairman of the House committee on foreign affairs, says that party lines do not extend beyond the borders of the country and while there may be partisanship in domestic affairs, that there must be united action in dealing with foreign nations. That seems to give an assurance that there will be no effort to discredit the action of the administration in the Mexican movement. But there may be a suggestion that the movement of troops was purely domestic, in which event it could be made the subject of party differences.

"It ought to be made as emphatic as could be stated," said Sulzer, "that Japan was in no way concerned in the movement of the troops. All the stuff sent out on this subject originates with and is put out by the junta in San Antonio."

J. Hampton Moore believes that if the nations of the earth would agree movment of the troops. All the stuff surrectos there would be much less disturbances in many of the inferior countries. He is going to make a move in that direction, with a view of cutting off the supply of arms to the revolutionists who can afford to fight when they get their arms cheap.

Darsey Shackleford of Missouri was once a member of the important committee on interstate commerce, but Minority Leader Williams and Speaker Cannon removed him because they did not like his views. Now Shackleford is a member of the more important committee of ways and means.

"I don't care much about it," remarked Shackleford. "I did want to stay on the other committee at the time. But I am not much interested now. Both Uncle Joe and myself are now out of our old jobs."

Looking over the list of committees it is noticed that Delegate Cameron of Arizona is a member of four good committees and that Delegate Andrews of New Mexico has three committees. Both are better placed in regard to number than any other members of the House. But it may be that their positions will not last very long, as the admission of those territories as states will abolish the delegates. Besides, they do not vote in the House or on the committees.

"I have had experience with the newspapers," remarked Congressman Dalzell of Pennsylvania. "I had been in China just previous to the Boxer uprising, and when I came home I told the newspapers about the conditions. My views were widely circulated, and I heard from it, you bet. Why, my mail came in by the basketful for weeks and months, mostly letters of denunciation. You see, I told the truth about the causes of the troubles—said they were largely stirred up by the missionaries—and the friends of those people jumped on me from every part of the country."

Congressman Baker of California located himself in one of the desirable rooms of the House office building, but did not stay long.

"I am skidded out. If you know what that means," said Baker, who comes from a country where they have a great deal of lumbering. "You see, I located here, but I am now getting out because Weeks of Massachusetts wants it, and he gets it by right of seniority."

In the army posts where many officers have to move because an officer of higher grade wants the house it is called "ranked out."

Arthur W. Dunn.

SHAKE INTO YOUR SHOES

Allen's Foot-Ease, the antiseptic powder. It relieves painful, smarting, tender, nervous feet, and instantly takes the sting out of corns and bunions. It's the greatest comfort discovery of the age. Sold everywhere, 25 cents. *Don't accept any substitute.* For FREE trial package, address Allen S. Olmsted, Le Roy, N. Y.

DOCTORS ENDORSE

Newbro's Herpicide

When a doctor endorses a preparation it means more than an ordinary testimonial. His opinion is always that of the professional man devoted to the welfare of the people.

Dr. J. J. Boyd, Covington, Tenn. says: "I feel it my duty to write this for the benefit of those suffering from dandruff. In the average case a few applications of Newbro's Herpicide will remove all dandruff. It is advisable to continue its use for several weeks."

The words of J. B. Thompson, M. D., No. 2 Burrough Place, Cor. Hollis St., Boston, Mass., are not less enthusiastic: "I can only speak in praise of Newbro's Herpicide. It is all that is claimed and perhaps more. Herpicide not only cleanses the scalp but brightens the hair, gives it life and makes it soft."

Dr. T. A. Moore, Duncan, Ariz., writes of his experience: "My scalp was in places covered by patches of dry, scaly material and the itching was incessant. Since using Herpicide all these evils have disappeared and my hair is soft, smooth and growing. Hair has grown on spots before but thinly covered."

Newbro's Herpicide is the original remedy to kill the dandruff germ and stop falling hair. The terrible itching which goes with dandruff is allayed almost at once.

Herpicide is for sale at Drug Stores and one dollar size bottles are guaranteed. Applications may be obtained at the leading barber shops. Be sure you get genuine Herpicide. Send 10c in postage for sample and book to The Herpicide Co., Dept. R., Detroit, Mich.

John M. Callahan, Special Agent.

GREATLY WROUGHT UP.

Chinese of Amoy Fear Seizure of Manchuria by the Japanese.

AMOY, China, April 18.—The Chinese populace is greatly wrought up as a consequence of the publication of the frequently recurring rumor that Japanese plan the seizure of Manchuria and of Fukien province, in which this city is situated. Yesterday the local self government society met in mass meetings to devise means for the defense of the country.

IN EASY FASHION.

Cutter Crew of the California Wins Pacific Fleet Championship.

SAN DIEGO, Cal., April 18.—Over a straight course of three miles, the cutter crew of cruiser California yesterday won the Pacific fleet championship boat race from the Maryland crew in easy fashion, having a lead of 600 feet at the finish. The time was 29 minutes and 15 seconds.

TOTAL VALUE OF $750,000.

Ernest V. Cowell Leaves Three Bequests to California University.

SAN FRANCISCO, April 18.—By the will of Ernest V. Cowell, which was filed in the probate court here yesterday, the University of California is given three bequests of a total value of $750,000. The bequests are for a hospital, student gymnasium and an athletic stadium, each to cost $250,000. Cowell who died here March 18, left an estate of about $1,000,000.

Regal Shoes at Cost Plus 5 per Cent.

An Earthquake for the Trade, but a Benefit to the Public

Regal Prices Are Now $3.35 to $5.85

NOBODY OUTSIDE the shoe trade can realize what a jolt that trade received when the Regal Shoe Company announced its new pricing-policy.

"HENCEFORTH," said the Regal Shoe Co., "all the shoes we make will be priced at COST OF MANUFACTURE AND SELLING, PLUS FIVE PER CENT. COMMISSION, no matter whether that price figures out in odd or even money, and without regard to the 50c jumps between prices, heretofore arbitrarily fixed in the shoe business."

IT WAS NOT the five per cent. that gave the jolt. The Regal Shoe Co. has always done business on a five per cent. profit and every manufacturer knew it. It was the abandonment of the "even price" that caused the stir.

THAT "EVEN-PRICE" policy has been the darling superstition of the shoe trade for twenty years or more. Standard shoes had been sold for so long at $3.50, $4.00, $4.50, $5.00 and so on, that dealers thought no other prices were possible.

"BARGAIN" SHOES—nameless products shoveled out by shoe "departments"—might be sold at odd prices. But *standard* makes—oh, never!

IT WAS ARGUED seriously by expert shoe-salesmen that men and women who wanted shoes of name and character would *rather* pay even prices. That is, they argued that a man would *rather* pay $5.00 than $4.85, whether or not he got anything worth having for that extra 15c.

AND SO, WHEN a designer produced a new shoe that could be sold for profit and all at $4.85, the manufacturers were up against an embarrassing situation.

THEY COULD DO any one of three things—and some one of these three things they all did:

THEY COULD LET that $4.85 shoe stand as it was and ask $5.00 for it, getting an extra 15c profit, if Regal competition would allow it,—or

THEY COULD ADD 15c worth of unnecessary expense to the shoe, bringing its price up to $5.00

OR, THEY COULD SKIN 35c worth OUT of the shoe, bringing its price down to the next even figure—$4.50, but spoiling the shoe's quality-balance.

BUT AS FOR DOING the obvious and proper thing—selling that $4.85 shoe for $4.85—why that was not to be thought of!

SEEMS RIDICULOUS, doesn't it? But all superstitions seem ridiculous after you have exploded them. And the Regal has exploded this one.

HEREAFTER, Regal Shoes will be built just as the Regal style-builders plan them. They know their business, and they know their public.

IF THEY SAY "This shoe is right as it stands—the best shoe that can be devised and built for its particular want and purpose"—why that shoe is going to the public just as it is, unaltered by a foolish custom.

THE DESIGNERS will *not* be required to add anything unnecessary to it, nor to take anything out of it, to bring its price up to or down to any set figure.

THE MANUFACTURING COST of that shoe will be figured carefully; five per cent. will be added and a further allowance covering the actual cost of selling that shoe to the customer, and the resulting sum will be the price of that particular shoe, whether it is $3.35, or $3.50, or $4.85, or whatever it is.

THE PRICE WILL BE STAMPED ON THE SHOE AT THE FACTORY and certified public accountants will verify the prices and also verify the fact that only five per cent. commission is added.

YOU GAIN MORE than the dimes you save by the odd prices. You gain also by better balanced quality and by the fact that you pay only for what you want.

REGAL Style-Builders now have a free hand. They simply get out the BEST SHOE THAT THEY CAN DEVISE for a certain purpose at *about* a certain price. You pay for exactly what you get, plus the fair 5 per cent. You are taxed nothing for useless additions.

Regal Shoes Give You What You Want At The Lowest Price That Can Buy It

COST PLUS 5 PER CENT. (PRICE OF EACH SHOE APPEARS HERE)

22 Van Zandt Ave.

NO SITE SELECTED.

[Continued fro a Fifth Page.]

and the Council refused to adjourn—yeas 67, nays 78.

The question was now on the Moorcroft site, the chairman carrying out the idea of presenting both to the Council, in order. It called for the purchase of 4,290 feet of land for $14,000, and the erection theron of a police station, the total cost of land and buildings not to exceed $50,000.

Dr. Ramsay desired the Board of Aldermen authorized to sell at public auction the buildings on the site. This did not strike the poular fancy at that time, but later the Council voted to amend the resolution by a clause authorizing the Board of Aldermen to sell at public auction the buildings on the site.

Mr. Tanner, who was on the original police station committee, said the Moorcroft site had been carefully considered, and the ground would not permit the erection of a police station of sufficient size. The building law makes an allowance of 11 feet between it and the jail. The great demand for the ground floor is more cell room. The office and court room, the cell room and the place for the patrol must be supplied by the ground floor, and this site does not offer enough space on the ground for the accommodations named. It makes no difference how the plans are arranged. There is objection to this site from a number of people, and this should be considered. The site is not in the centre, which seems to include the space between Marlborough and Cannon streets. He believed the Council should consider these matters before voting on a site which seems to have no proper qualifications for selection, according to what the old committee had learned about the needs of police station.

Mr. Williams did not believe in what Mr. Tanner said. He thought the police station should be near the jail. There should be provision for the transfer of prisoners, some of whom might be innocent, from the station to the jail, pending trial. They should not be exhibited publicly. If there had been any petition aginst this site the present committee had not seen it.

Mr. Tanner asked for the reading of the petition aginst the Moorcroft site, which had come to the Council and not to the committee. It came to the Council November 25, 1910, when Mr. Williams was still a private citizen, and the city clerk read it.

Mr. Dyer said he did not see why plans could not be drawn to fit the police station to the Moorcroft site. The lot is 60 by 69 feet, and is large enough. Mr. Franklin asked if the land could be drained, and Captain Cotton said there was no trouble about that. Then Dr. Ramsay came in again with his sale amendment, and it was adopted.

J. B. Sullivan, of the old police station committee, said Mr. Tanner had well covered the objections to the Moorcroft site. It would be a big mistake for the city to have the Council adopt this site without knowing the conditions. It makes no difference about the plans prepared by the old committee; just so much room is required for a police station. It could only be obtained on the Moorcroft site by building up four or five stories. The location is not central and the fact that the site is open on three sides is really an objection rather than an advantage.

Captain Cotton said the site is too small. Prison lane is too narrow for the proper handling of a patrol wagon entering or leaving the station, and if this site were selected it meant that another must be chosen for the patrol wagon. There is a need for a morgue, the proper location of which seems to be adjacent to the police station, and there is no room on this site for a morgue.

It was 9:44 and J. B. Sullivan moved to adjourn. The Council so voted, and the police station site was left in the air.

TOWN EVACUATED DURING THE NIGHT.

Continued from First Page.

vanced position in the ravine. In this manner a large body of troops was quietly got under the shelter of a knoll, which protected it from the rebel fire from the bull ring. Occupying this position at night, it was ready to rush the town at dawn.

Colonel Diaz and Major Baron of the federal troops were engaged early today in gathering up the discarded arms of the rebels and bringing in the insurrecto dead. Five bodies were brought from the rebel trenches. Three of these were Americans. No wounded men were found. American Consul Dye made a second visit to Agua Prieta and made a demand for a conference between the American officials and the federal commanders to arrange for the throwing open of all the ports of entry.

One explanation of the shortage of ammunition that finally rendered futile the rebels' defense of Agua Prieta, is found in the frequent seizures by American officers and customs officials of rebel supplies. Only yesterday army officers acting in conjunction with the secret service confiscated 20,000 rounds of cartridges in Douglas, which were destined for Agua Prieta. This was a severe blow to the garrison and was the direct cause of the surrender of Commandante Garcia to the American army officers last night.

When the word to retreat came the rebels in advanced positions feared they would be cut off from the main army and many of them threw down their rifles and ran in any direction that promised safety. Only this portion of the rebel forces was disrupted, notwithstanding the desertion of their officers Colonel Medina and Commandante Garcia. The remainder of the garrison got away in good order.

The rebels were seriously handicapped by lack of provisions. Federal officers explained today that the machine gun which was operated to the east of Agua Prieta yesterday, was apparently abandoned by them as a ruse, a squad of sharpshooters being in ambush in the bushes in expectation that the rebels would make a dash from their trenches to the gun. Both the federal machine guns were in the bull ring today with the plentiful store of ammunition.

The federal army appeared today to be in good fighting trim, despite the hard campaign and continued marching of the last three weeks. Secretary Grindell of the Douglas Red Cross wired to Secretary Nagel at Washington today: "Insurgents evacuated Agua Prieta during the night. The federals are in charge. Red Cross assistance not desired. Nurses ordered here not required."

At 1 o'clock the American customs officers declared the port of Douglas open to entry.

HIGH TENSION RELIEVED.

tion of Agua Prieta and the cessation

Washington as Acute.

WASHINGTON, April 18.—Positive assurances that the Mexican government will adopt a "definite restrictive policy along the border" and news from Douglas that the rebel forces have evacuated Agua Prieta, did much today to relieve the high tension under which President Taft and members of his official family have labored for the last few days. The assurances from Mexico followed demands of the State Department that fighting which endangered American lives in the border towns must be stopped.

That the situation is not now regarded as acute is evidenced by the fact that leaders of both the Senate and the House, with whom the President conferred prior to the assembling of the cabinet, declared that no action is contemplated by Congress at this time. The President had extended conferences with Senator Cullom of Illinois and Representative Sulzer of New York, chairmen respectively of the foreign affairs committees of the Senate and House.

Senator Cullom insisted that he could see no reason for intervention, while Mr. Sulzer announced that Congress would not act hastily. Mr. Sulzer is of the opinion that thus far, there has been no overt act in Mexico sufficient to warrant intervention. He intimated, however, that a plan is being considered to relieve the danger to Americans near the border. This contemplates an agreement for a neutral zone from five to ten miles wide along the boundary line.

Congress, Mr. Sulzer said, will not act under any circumstances without a special message from the President. To his callers today, President Taft said that his telegram to Governor Sloan of Arizona published today, reflected correctly his attitude. There was no intention upon his part the President told the Senator, to intervene in Mexico at this time, and the two big developments of the morning had strengthened him in that position.

In official circles it is realized that while hostilities have ceased at Agua Prieta trouble may break out at Juraez or at other border towns, but they are more than ever inclined now to trust that Mexico will make good her promise to keep the federal troops away from the border.

The Mexican situation was the subject considered at today's cabinet meeting. With the declaration by the President and his advisers that no American soldier will cross the border line without the consent of Congress, the administration's next move is anxiously awaited, especially by members of Congress. It seems almost certain that the problem will soon reach the halls of Congress. Interest of official Washington in the situation is keyed to the highest pitch, and the border developments brought officials of the State and War Departments to their desks early today. Every bit of information which has been received over night was rushed to the White House for the perusal of the President. The President's interest and concern over the entire matter is plainly evident in the fact that every telegram received by the departments, whether official or unofficial, is laid immediately before the President.

OFFICERS SUBMIT REPORTS.

Presented in Person to Convention of Daughters of Revolution.

WASHINGTON, April 18.—The various general officers of the Daughters of the American Revolution submitted their reports to the twentieth convention of that body today. The session of the forenoon was taken up by these reports, which in nearly every instance were presented in person by the officers.

Among those to be heard were the president general, Mrs. Matthew T. Scott, as chairman of the national board of management; the vice president general, Mrs. Miranda Barney Tullock, in charge of the organization of chapters, and the chaplain general, Mrs. Esther Frothingham Noble.

STEAMER ARRIVED.

New York, April 18, Kaiser Wilhelm Der Grosse, from Bremen, etc.

Protection! Service! Council!

In every bank announcement a feature is made of the security it offers depositors.

This is commonplace and is no more than you have a legitimate right to expect.

Banking is based on security.

Our service extends beyond this element of security. It extends to meeting the depositors on intimate equitable lines, and our advice is at the disposal of our depositors, who are seeking for investment of their funds.

Do not hesitate to call on us in this essential.

This broad policy of co-operation is a new phase in the banking business and marks the first real advance in twentieth century banking.

The invitation to call in and discuss business with us is extended cordially to the ladies.

CRUSHED TO DEATH.

French Aviator Falls With Machine to the Earth Near Versailles.

VERSAILLES, France, April 18.—Captain Carron of the French army aviation corps fell with his aeroplane from a height of 250 feet today and was crushed to death. The aviator had left Orleans this morning for this city and was midway between Villa Coublay and Versailles, when his machine plunged to earth turning over as it fell. Carron was caught under the wreckage.

SUPPLICATIONS TO BE PRINTED.

Daily Prayers of Chaplain Will be in Congressional Record.

WASHINGTON, April 18.—Without running the risk of missing prayers, the members of the House of Representatives hereafter may be late whenever they like. The daily supplications of Chaplain Couden have been ordered by Speaker Clark to be printed each day in the Congressional Record. The request was made by Representative Ashbrook of Ohio.

FINANCIAL.

NEW YORK, April 18, Wall Street—The market opened with Amalgamated Copper at 62⅛, American Cotton Oil 54½, American Smelting and Refining 73⅝, Atchison, Topeka & Santa Fe 108⅜, Baltimore & Ohio 105⅛, Brooklyn Rapid Transit 78, Canadian Pacific 228½, Chesapeake & Ohio 80⅜, Erie 29⅝, Great Northern preferred 125½, Interborough Metropolitan 18½, Interborough Metropolitan preferred 51½, Missouri Pacific 47⅜, National Lead 62, New York Central 106¾, Northern Pacific 123⅝, Pennsylvania 124⅞, Reading 154½, Rock Island 29, Southern Pacific 115¾, Union Pacific 170½, United States Steel 76⅝, United States Steel preferred 119⅞, Wabash preferred 37.

Noon—Prices fell away steadily during the morning session in which trading was the most active of any day for several weeks. Bear traders, encouraged by the success of their drive against Missouri Pacific, enlarged their operations and forced recessions throughout the list. Missouri Pacific declined 2⅝ to 45½, the lowest of the year. The latest news from Mexico was a factor in today's operations, the selling movement being encouraged by belief that a serious crisis is imminent. Selling of Interborough Metropolitan apparently was inspired by developments indicating that the company may not be the successful bidder for the construction of new subways. Uneasiness over the possibility of reduced dividends in certain specialties was a factor in more widespread selling of stocks of this class. Losses of a point or thereabouts were pretty general in the active list. The bond market was irregular. Money on call steady at 2¼ per cent. Prime mercantile paper 3½ to 4 per cent. Exchange $287,606,861; balances $17,371,146.
